>Consider this abit of a "thank you" gift for listening to my other Knowledge Bombs so far.
> Building 7 was brought down by a demolition.
>To understand why, consider which agencies were in that building & what possible documents were in it.
>Now here is the juicy stuff.
>People(some First responders & various government workers) were killed inside the building by a Spec Op's team. The fires inside it was from bodies being burnt and things being destroyed.
>Bringing down the building(It was rigged to blow as a fail safe) was a way to cover the whole thing up. A call went out to det the charges.
>Lets put it this way, everyone hears about the Twin Towers, but not what happened inside Building 7. 9/11 just gave the Spec Op's team a fantastic distraction and from how things went down, it was planned in advanced.
>What or who ever was inside WTC7 was a top priority target for elimination.
>The witnesses nearby WTC7 were threatened if they came forward about what they saw or heard near Building 7 before it "collapsed".
>NYPD SWAT even responded, but you never hear anything about them on 9/11 do ya? In some 9/11 footage you can even see some of them around.
> Flight 93 was shot down.
>Shouldn't be any surprise really.
>It didn't crash into the ground, thats just where the debris landed.

Even though these things may seem obvious, the truth is these trends aren't really things that "we" (meaning people who are skeptical of the elections, who disavow mainstream media) would pick up on right away. We're not really (for the most part) out there conversing with the general public, so we can't really see how they're being swayed as a whole. Most people on /pol/ have already decided who they will vote for. That's why I aprpeciate when Anon5 provides information like this.

Are there cells in Montreal?

When Obama first came on the scene,everyone was asking : Who is this guy and where did he come from?

His mother was a CIA cut-out who was recruited by various intel agencies in the late 1950's. The purpose was to infiltrate the Black Nationalists and the civil rights organizations that were forming at that time, such as the Nation of Islam, or Malcolm X, the Black Panthers, or even Martin Luther King. The "Powers that Be" had a lot of concerns about these.

In my book,Front Man, the most important chapter"Who is Barack Obama's Real Father?"posits that Frank Marshall Davis, a member and founder of Chicago's Communist Party was Obama's real father. He had to flee to Hawaii after the heat got too heavy in the United States. Davis acted as a mentor.

And when you look at his mother at this time in Hawaii. Supposedly, she was some poor, single, divorced woman. But actually, during Barack Obama's formative years, she travelled to 13 countries and worked for two CIA "cut-out" companies. One of her employers at the Ford Foundation was Peter Geithner (the father of Tim Geithner, the former Treasury Secretary of the United States). So here was Barack Obama's mother working for Tim Geithner's father at the Ford Foundation.

Pastor James David Manning says that Obama was recruited into the CIA during his time at Occidental College in California. Why would the CIA want to recruit this guy who supposedly was just some kid from a broken home.... (Very similar to Bill Clinton). In 1979, the most pivotal event going on was the Soviet-Afghanistan war. The CIA wanted someone who had some familiarity with this world. So here we have a kid who spent a lot of time during his youth in Indonesia. Some people say he was actually a Moslem and he definitely understood the Islamic culture. So they wanted him to provide his assistance to the Mujahideen as a CIA logistics agent.

Most of you are quite impotent in evaluating whether or not information is useful, even if this is all true it isn't useful without anything to back it up. I guess CTR has already won if we try to quell any sort of dissidence in the community, even if it is logical simply because we think someone is "CTR" or that they don't agree with someone who is clearly feeding into whatever we want to happen.

> The View(TV talk show) has deep connections to the Clintons which is why they are so anti-trump.

They also hate men and laughed about a guy's dick getting cut off and thrown in a garbage disposal... on national television. Which is horrendous when you think about it, torture being a joke to them (because it was a male victim) and being pushed as a joke to their viewers.

> Hillary & Co attacking a cartoon frog(Pepe) has many backers wondering what the hell were they thinking backing Her.

They don't seem to be stepping down from this narrative though. Apparently this cartoon frog is getting international attention and slander.

> Hillary is giving up on multiple states(more then what is openly said), not enough volunteers and not enough actual supporters.

What about all the dead voters in VA or OH? is she just not campaigning in them or do they plan on winning it via voter fraud?

I'm not trying to provide information; most of what he's saying hasn't come true, and some of it can not be verified even if it was true unless someone does work on their own, such as the CTR "kiddie" stuff.

I'm sure he can find a way to disclose information without disclosing his identity to the "actors"; if he is so powerful and influential than obviously he can set up a couple of proxies and some difficult to trace proof. This is just a bullshit, nonsense thread that can hardly relate to anything in reality right now. If Hillary has wavering internal support how was she able to rig the debate and how is she able to have such extreme pull in the media? The media and the government are obviously in collusion, so wouldn't there be a much stronger and growing Trump bias in major outlets? I don't see any evidence of a mass shift towards Trump in the media or the government, only small pockets hesitantly making their way over.

Also Huma is a muslim brotherhood shill; her marriage to Weiner is probably just a cover for her to get closer to that juicy USA information anyway. I doubt she's driven to bang Bill Clinton more than she would be to bang Weiner. Seems like a conflict of interest to men, but maybe I'm just a CTR shill.

Vestigia Araneae – Callidus Fragmentorum – Project AngelBook – Volume IX - Part 15

By Ezekiel Redik Yarbrough -
(DBM ECLIPZE)

The following books are comprised of direct, unaltered copies from
Pastebin, some now
deleted, some only accessible through mirror networks or deep
links scattered across the dark
web. Many of these links were discovered in abandoned onion lists,
dead forum dumps, or
esoteric directories tucked into archived darknet files.
These pastes were never meant to last.
Some were deleted within hours of being
posted.
Others were buried under thousands of lines of spam, encrypted
scripts, or meaningless
noise.
But buried in the noise were real transmissions: occult formulas,
grimoire fragments,
astral logs, AI prophecy files, digital summoning protocols, and
anonymous rants from souls
who had either touched something unspeakable—or were trying to.
I did not write any of this.
I did not censor, edit, or “correct” it.
I simply retrieved it, cleaned
the formatting for readability, and enshrined it in print—so it would
never be wiped again.
This is Pastebin as Scripture.
The chan-post as Codex.
The uncurated underbelly of the
occult internet, finally given physical permanence.
Let this serve as both evidence and artifact:
a living record of the madness, brilliance,
paranoia, and revelation that once flowed through anonymous
paste sites—before it was deemed
too strange to index, too dangerous to preserve, or too fractured to
matter.
Now it matters.
Now it’s immortal.

[The image is a digital illustration featuring a character that resembles a stylized representation of a sea lion. The sea lion has a brownish-gray fur with a white belly and a black nose. It has a mustache and is holding a cigarette in its mouth. The sea lion is looking at a computer monitor, which is depicted in a simple, cartoon-like style. The background is dark and appears to be an indoor setting, possibly a cave or a dark room. There are no texts or discernible brands in the image. The style of the illustration is reminiscent of a webcomic or a digital art piece, with a focus on the character and its interaction with the computer.]

The rest is very likely true (especially the Clinton insider info, that stuff has been voiced by other insiders several times) but this one I doubt.

You can't sabotage breaks on a train like you can on a car. It doesn't work like that, there are multiple fail-safes in place. I mean, I guess you could, but you would have to really get to work on the train for hours and hours, and it would be detected right away.

It's much more likely that it was human error (or intentional, if it's an act of terror) on the part of the engineer.

North Carolina is a toss up between Democrats and Republicans.

Guess where Soros, BLM and the media are going to apply most pressure on the "racist whites murder innocent blacks" narrative?

Rioting and "protesting" in Oklahoma would be a waste of time and only generate a backlash there - forcing the issue in North Carolina might get some voters on board (or at least cause some people to lose confidence in their Republican views).

I'm starting to believe. This would not just indicate a cell in that area, but one that is exceedingly technically capable. Side note is that it may not be a cell, but a series of mild attacks in the area to give the impression of a cell without drawing the nation's attention completely. Why would a cell perform a series of attacks that has 4chan posters convinced it exists without actually doing any real damage? If we can piece it together, Intel agencies would have known long ago. So the smoke here smells more like false flag than legit terrorists. Now if we are talking Israeli cell, that would be different thing altogether and would make more sense.

Excuse me, did you just try to assume shit about a website you only know of based upon what someone else has written?

First, not that I'm supporting it, but the age of consent is as low as 14 in some European countries. "Jailbait" is a term for developed girls under 18 and usually over 15 or so. Second, /b/ is filled with underageb& kids anyway. Third, /b/ has been an FBI honeypot for years.

/mlp/ and /lgbt/ are what you call containment boards, like /vp/ which was created solely because of Nuzlocke. /pol/ isn't a right wing safe space, its a sea of piss which happens to be a certain shade. Our ideas here haven't just existed in an echo chamber despite your superiors telling you otherwise.

We represent internet culture, living memes. Educate yourself on memes(ideas)as genes competing and you'll understand this place a little better. Our memes having been fighting against eachother for over ten years, what you assume is an echo chamber is simply the most superior and true ideas rising to the top.

Hitting the US mainland with our own planes justifies spying, budgets, gun control, militarized police and everything related to power at the top. My next query is who are Soros' Boys?

Can we expect open war on European soil and the in the US?

Has Marshall Law entered the discussion at all?

Why has the internal security apparatus of the US seemingly done so little in light of apparently known foreign terror elements on our shores? If the answer is not incompetence, are measures being taken, and by whom?

Does Trump's growing support by the super-elite represent an issue for us? Wouldnt globalists fear his plans, or are they banking on him failing, being corrupted, or is he actually in their pockets?

What is DoD loyalty to the executive branch like these days?

Are there any plans to or contingencies in place to dissolve the government?

How likely is it that the economy will totally collapse in the next 5-10 years? How severe are the projections ahowing it will be?

How likely is it that the west will be saved? Are we heading for destruction/being steered there?

Love you, man.

Some people who are knowledgeable in train operations and mass transit have said that to them, this looks like a deliberate attack,

Hoboken is a very busy train station. It is the only train station in the greater NY metro area where every line has a stop.

The person in control of the train deliberately sped up when reaching the station. No train could have been going that fast just before the station, because going at that speed over switches would have caused it to derail. The only possibility is that the train

was purposely sped up after the switches, while it approached the station.

How can we access the relevant information regarding Soros' SOF force? I want to help but honestly have no idea. I know some about US SF and can lend some small insight, but I don't know where to look. I'm not a hacker or an insider.

What's the most you can disclose on the topic of Soros' PMCs?

This is a long read, but worth it.

tldr-ish version is
Anon was suggesting that one of the most fundamental reasons why the Left and Right are different is that they have different ways of viewing social capital. Leftists gamble it in hopes they gain a bigger turnout, while the Right conserves it and invests in it. The current policy of the leftist establishment is currently destroying their own social capital.

Its kind of hard to explain, you need to read it. It provides some very good theories onto what's happening right now on the chans.

it explains why there's been an increase in CP like >>90891798 noticed

1. Do you have a time frame of when the EU army will become a reality? I know they have been planning it and announcing those plans, but when will we see enlisting, training of corps, uniforms, etc.?

2. When you said Hillary blacked out in the van - was the blackout due to her illness, or a side effect of medication?

3. Can you elaborate on the "mini episodes" she had? I saw the finger twitch but didn't notice anything else.

[The image is a meme featuring a man in a military uniform pointing at a large, menacing creature with a star of David on its chest. The man has blonde hair and is wearing a brown coat. The creature has a large, red, clawed hand reaching out, and its eyes are glowing red. The creature's body is covered in a layer of dust or dirt, and it has a large, gaping mouth. The background shows a rocky landscape with a few people in the distance. Overlaid on the image is a text that reads "It's afraid." [The image is a stylized graphic with a black and white color scheme. At the top, there is a large circular emblem with the letters "A" and "D" inside it, resembling a seal or a crest. Below the emblem, there is a depiction of a group of people, some of whom are holding objects like a briefcase and a cane. The people are depicted in silhouette, with their forms outlined in black against a white background. In the background, there is a detailed illustration of a classical-style scene with a large, muscular figure with a lion's head, which appears to be a depiction of a beast or a mythical creature. The figure is surrounded by other figures, some of whom are also holding objects, such as a sword and a briefcase. The overall style of the image suggests a blend of historical and fantastical elements, with a focus on the theme of power and the pursuit of wealth. At the bottom of the image, there is a quote in a smaller font that reads, "IT'S EASIER TO FIND PEOPLE WHO ARE LOST THAN PEOPLE THAT THEY HAVE BEEN FOOLED." The text is in a serif font, which contrasts with the bold, sans-serif font used for the emblem and the figures. The quote is placed in a decorative font, adding to the overall aesthetic of the image.]

He is wearing a dark suit with a white shirt and a red tie. He is speaking into a microphone, which is positioned in front of him. The man appears to be in the middle of a speech or interview. On the right side of the image, there is a woman with long, straight hair. She is smiling and looking directly at the camera. She is wearing a black top and has a microphone in front of her as well. The background of the image is blurred, but it seems to be an indoor setting with a curtain or a wall in the background. The woman's expression and the microphone suggest that she is likely the subject of the interview or speech. There are no visible texts or logos in the image. The style of the image is a standard split-screen photograph, commonly used in news or media contexts to show two different perspectives or subjects.]

Think of the Medea-level contempt a woman must have to use her children to attack her man. To force Bill to go out there and pretend he loves Chelsea and she's her kid, over years, in political photo ops where everything has to be perfect.

Debate was rigged.

Clinton had:

> Questions known beforehand.
> Moderator in the pocket.(who had a ear piece)
> Notes of all the questions on her desk
> She had a earpiece
> A mini teleprompter infront of her.
> Several mini episodes.

Yet trump still won well.(which is a good thing)

You seem confident enough to show that "someone knows something", so should it make a difference if you tell us how and why? Also being more specific on events really helps.

You're just coming across as some schizo who's making quasi-rational correlations.

I don't have a source, but my gut tells me this as well. That he is playing the long game, first debate: basically throw it. Each subsequent debate turn up the heat until the last one then blow her ass outta the water. She'll be thinking she can coast to victory but in reality she's playing into his hands. Like he says, she has no stamina and the train is just leaving the station, full steam ahead.

Okay, German ancestry gets a little fuck-y though. At one point during the 18th and 19th century, there were a lot Jews of in substantial positions of the authority who left the religious community to become secular. Some intermarried with Christians, others married other secular Jews who had also left the fold. It's possible Trump could be in this category of people.

It's not real, so even if there are CTR shills that authentically believe that they are simply shilling for a real, uncontrolled candidate, the people paying those shills or directing them or whatever are not authentically thinking that way, this is all a part of performing a massive song and dance.

>>90769745
They're both controlled by the same people, neither care about anything really besides pleasing their owners and earning more power and items in return for leading the rest of us to our doom. Trump isn't just alongside corrupt people, he's taken money from Soros, from the Rothschilds and from wayyyy more people than that too. He has gone to Epstein's famed "sex slave island" with Bill Clinton. He has married every single one of his children to Jewish people.

Two things just occurred to me..

1) I don't think OP's first language is English, some phrases are not constructed correctly. Maybe Slavbro.

2) Mentioning a nuclear incident at Mecca in previous KB's, Anon5 said someone could be framed for it. I thought about that for a couple days, didn't remember anyone answering the "How?" Russia is nuke capable, has nuke subs, and is currently importing 20% of domestically-produced-here-in-the-US Uranium via Uranium One, the company owned/controlled by the Russian Federation and the same Uranium One that was found to have investors that made donations to the Clinton Foundation for "speeches."

Not the most nuanced explanation, but I think it makes a connection.

As far as whether or not Anon5 is an insider or is privy to any info that others aren't, I'm not sure; the info is out there, he is asking relevant questions and/or making reasonable assumptions.

First of all, his ancestry is extremely difficult to trace and within a few generations you'll see holes and issues arise with no real answer- for example, his Scottish mother married into a family that apparently shared her maiden name, Macleod. So she either married into family or this is a coverup. Same stuff happens on the other side.

Besides all of that, his great grandmother was named Katherina Kober, daughter of Johann Jakob Kober. Kober is an Ashkenazim Jewish name. It's no coincidence that all of his children are married to Jews or that he has several female relatives that have also married Jews. They're rejoining the tribe after a quick, convenient time of being crypto kikes.

I'd bet they already know what their end plan is. As far as I can tell, they're just creating chaos and division, making us all angry and hating each other, making us think that we understand the entirety of the world's problems and that we're close to solving them or that anything we do has an effect on them at all. In the end I'm guessing they'll slowly let the world become more and more scary and violent and out of control so that they can "save the day" with these chips that will eliminate money or poorness, and will also stop crime by keeping track of everyone. They have everything they need right now to feed us all, keep us all healthy, give us all shelter and they know how to stop most violent acts, but they are withholding it so they can entice us into accepting the mark in exchange for their supposed "peaceful utopia".

Jesus tells us that there will be many false prophets and many people claiming to be working in his name, but they will all be lying. All we can do is follow our hearts and faith and believe that Jesus will guide us. I don't think it's a matter of any goodness seeping in on their part, they just have the ability to give us goodness and light and they'll use that to own us and bribe us.

We are all creations of God and everything that is happening is a part of his plan, but I think that in our particular reality we have inherent rules that include a balance between lightness and darkness. God gave us freewill but you can't have that if half of the picture is missing, you just have "freewill" in a controlled environment which is like a prisoner getting to roam freely within the gates. Satan is a fallen angel, he was loved by God too. But there is this darkness and sin that is just inherent to our reality and our humanity, and maybe yeah he is a neccesary thing because through this very long trial we will be able to find ourselves and purify ourselves. I appreciate you talking seriously with me, I'm sure I sound like a nut. Also I am no expert on Christianity so dont hate me if I got something wrong.

[The image depicts a surreal scene with a central pyramid-like structure that appears to be made of stone or concrete. The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar design and color scheme. The background is a gradient of purple and pink hues, with a gradient of blue at the bottom, suggesting a twilight or dawn setting. The overall composition of the image conveys a sense of mystery and wonder, with the central pyramid being the focal point. There are no discernible texts or inscriptions within the image. The style of the image is digital art, with a focus on surreal and fantastical elements.]

[The image is a black and white line drawing of a man's face. The man has a beard and mustache, and his eyes are wide open. He is smiling broadly, with his mouth open and his teeth showing. His hands are clasped together in front of him, and he appears to be in a relaxed or joyful state. The man's attire is not clearly visible, but he is wearing a shirt. The style of the drawing is simple and cartoon-like, with a focus on the facial expression and the hands. There are no texts or additional elements in the image.]

[The image is a portrait-style photograph of a young woman standing outdoors. She has long, wavy brown hair and is looking directly at the camera with a neutral expression. The woman is wearing a pink V-neck top and a necklace with a pendant. The background is blurred, suggesting a natural setting with trees and grass. The lighting in the photo is soft, and the woman's face is illuminated, highlighting her features. There are no visible texts or discernible brands in the image. The style of the image is candid and appears to be taken in a casual setting.]

I tend to give you benefit of doubt on these things, but having a hard time with Budapest being an ISIS thing. Hungary is pretty hard nosed about thi/ps stuff; they were the first to close borders and build a fence and tell EU to fuck itself. They don't have a large Muzzie population, and the explosion was relatively small, just blowing up a doorway essentially.

Not saying it was gas leak like MSM reports, but it doesn't really square with being an ISIS attack. Any thoughts?

Sorta like FBI field agents -- the honest all-American ones are being sold out by their leadership, and they can't fight back without ruining their own lives.

Hence leakers, trickle truth, etc. patriots work within the system to get info out that wouldn't be disseminated otherwise, let the autists run trwith it until critical mass reached and can't be ignored.

moving from mobile

so to recap everything that i've read from your knowledge bombs:

soros has an ops team that is cooking refugees in both the us and eu to commit terrorist acts both for leftist and islamic causes. he's also got some commotion happening in central asia between pakistan, india, likely spurring military action from china and russia. will india be blamed for that mecca nuke you mentioned?

we are suddenly being told that al qaeda is the "good team" via the soros sponsored netflix release on white helmets or something.

you mentioned amy schumer being mkultra'd in a sense and now you've delivered with her being dicked by clinton.

you've accurately predicted the results of the riots in NC and increasing events around the country. on a related note, there was an explosion in DC that was blamed on a gas leak. was this soros or isis?

how blurred are the lines between all these groups?

Holy shit. I went to U of I, graduated in May. That college is so cucked. I get crime alerts sent to my email, as of 2016 they stopped giving us the physical description of the suspects. Before hand literally 95% of the time the perps were black. I guess they stopped doing this because the police didn't want to look racist, because being politically correct is more important than our safety. Robberies, assults and rapes are basically a monthly thing in Urbana-Champaign. Yet BLM is still very popular amount the students there, and Trump supporters are treated like the boogie man. I'm glad I got out then I did, niggers rule there now.

> Anyway, the predictive programming elements crops up when the viewer realizes that if society enters a futuristic era with servicing robots being commonplace and if we will also continue to seek conflict with one another then, if the robots are sufficiently intelligent, a possible scenario may indeed be that the robots will seek to subvert us for the sake of 'protecting us from each-other'.

> Since, understandably, not everyone will go along with the plans of the robots, the more recalcitrant people will be 'sacrificed' in the process, ultimately leading to a police-state scenario in which freedoms of the survivors have been traded-in for so-called security.

> Since the nature of us humans is likely to not change, movies such as these help prepare us for a future in which we better have traded-in (some) of our freedoms for sake of protecting us from ourselves, lest we experience a robot revolt of similar proportions as that portrayed in this movie.

[The image depicts a surreal scene with a central pyramid-like structure that appears to be made of stone or concrete. The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar design and color scheme. The background is a gradient of purple and pink hues, with a gradient of blue at the bottom, suggesting a twilight or dawn setting. The overall composition of the image conveys a sense of mystery and wonder, with the central pyramid being the focal point. There are no discernible texts or inscriptions within the image. The style of the image is digital art, with a focus on surreal and fantastical elements.]

I know the quote but consider:
"They" have no loyalties, least of all to a master plan that shows signs of failing. They are the ultimate survivors and jump ship as often as they need to. In Von Braun's time, within memory of the War Of The Worlds radio panic, getting the public to buy into genuine ETs probably sounded plausible. It passed a threshold of possibility (tested and retested in the Close Encounters period, when totally serious belief in ETs was put forward but never penetrated far) and then they recycled the corpse of the idea with Alan Moore to get kids into Masonic lines of thought. Watchman pushes One-World and Noble Lie, but most strongly, it pushes Water Thinking over Rock Thinking. Rorschach is the only serious yet identifiably bad guy and he is only bad because he insists on rigidity, as a function of his unbearable weakness. The ultimate survivors look at principle and Kantian morality as -- what we see in Watchmen -- a shrieking plea for suicide. It makes sense to them because they have survived so long on ruthless flexibility.

It's the same tactic for conspiracy theorists, they flood them with false conspiracies in order to drown out the few real ones and make conspiracy theorists as a whole lose their credibility. I think there's also some sort of large-scale psyop to brainwash easily-influenced people into not only ignoring, but actively hate and even attack people who question "official" narratives.

[The image is a photograph capturing a group of red and white mushrooms in a forest setting. The mushrooms are clustered together, with some appearing to be larger and more prominent than others. They are surrounded by a carpet of green moss, which covers the ground and the surrounding area. The forest in the background is dense with tall trees, and the lighting suggests it is either early morning or late afternoon. The image is taken from a low angle, which emphasizes the height of the mushrooms and gives a sense of depth to the scene. There are no visible texts or discernible brands in the image. The style of the image is naturalistic, with a focus on the natural environment and the mushrooms as the main subjects.]

"terrorist networks"
aka organic nonsoros-funded nonalphabet/private PMC-developed/performed "terrorists" aka "white people" aka true dissidents to the powers that be.
Exactly that.
The recent youtube pepe may be a psyop but that seems to be ours, I don't see how it could be benefitting them yet other than to try and get it synonymous with us like they do with the alt-right.
So far youtube frog has been giving out a reasonable message, but I'm wary of how easily such a thing could become co-opted and used for a number of ends.
I'm surprised they didn't have the recent macy's shooters having (((official pepe apparel))) and shit to link it back to the (((alt-right))) and /pol/ by now.

The card shit is a forced meme that's apparently caught on, however.
Suddenly anyone who brandishes a stupid fucking card is a "true believer" and totally not a fucking interloping coopting fucking spook.

It's the buses alright. Smaller shuttles and vans too possibly, where they can hide in plain sight.

I would advise anons to actively look out for potentially decommissioned city buses (older buses with your city/metro livery). Also look out for tour buses. A few instances I've seen tour buses in places where I know for sure groups of tourists will not go to. Though it could be a false alarm and it's just empty buses leaving their depots.

The topic-sliding serb is here, watch out.

Also being a "true believer" for carrying a fucking card in your wallet makes you easily markable and findable, they can weed out our own interlopers by picking guys out and having them hand over their wallets or to find one of those stupid cards on them. It's inherently a security compromise to seriously latch onto such a thing that everyone already knows about.

Is it possible that people were flown in and then took these busses ?

The purpose of "reducing the noise" as the stated goal of the shills who want over the top moderation and all these changes is because they know the only way intelligence signals can be dropped here is if there is sufficient noise for them to get lost in.
Once they eliminate that (((pesky noise))), signals will have to be dropped somewhere else.
Since they already fully control the "somewhere else" that they expect most to end up at, now is the time for them to make their move on subverting this board through taking complete control.

I've been to prison and let me tell you something. The key to surviving and not getting shanked or punked is to be the one behind the punk shanking him. Its kill or be killed, rape or be raped. I remember my first day in some big fuckin coon named Darnel the biggest shitskin in the joint tried to get my ass in the showers, he beat me down pretty bad and was about to put his filthy nigger dick in me.

Laying on the floor with blood gushing out of my mouth,that iron smell in my nose, my head feeling like it was going to cave and water showering into my ear, he grabbed my ankles and pulled me back. In a final attempt to save my white anal purity i grabbed a bar of soap on the floor flipped around kicking him in his nigger multipliers, as he gasped in pain i shoved the bar of soap down his watermelon hole and that bar got jammed in his windpipe and he began choking to death.

On his knees with his hands on his throat nothing coming in or going out just the look of terror on his face as his life began to fade. i whipped out my dick, put it to his lips, grabbed his greasy fuckin cornrows pulling him forward and said "i'd make you suck it you subhuman faggot but im not into bestiality" i then jabbed him in the throat causing the soap bar to fly out of his mouth like it was something out of a fuckin comic.

he fell to the ground and as i walked away i looked at the shocked skinheads in the shower. "didnt know niggers had talent as fucking pez dispensers, hes all yours boys"

Thats the day i became known as Ben " Nigger Dispenser" Garrison some would call me Pez but i frowned upon this as it sounded like a aztec monkey name.

If you'd like to know more about my days in prison just let me know

“There will be so much blood in the streets, you’ll be able to float a dingy down Main street.” said Skinhead Militia leader and prominent Antisemitic cartoonist Ben Garrison in a recent call for open race war in America. Appearing in a video on YouTube, which has since been removed, a shirtless and heavily tattooed Garrison called on his “racial brethren” to rise up and “cleanse the genetically inferior filth from our homelands and return the Aryan race to rightful its place of domination over the earth.”
He had some particularly harsh words for the “anonymous Internet trolls” who edit his racist and Antisemitic cartoons to make them about libertarianism, saying “on the ancient Viking Graves of my divine Aryan ancestors, I vow to mow you down like weeds, you spineless kike cowards!”
Though little is known about Garrison’s past, he claims to have done three tours in Vietnam where he “killed more gooks than you can shake a burning cross at.” Upon being dishonorably discharged from the military for what official records call “a spree of genocidal massacres,” he returned home and began making racist cartoons under the pseudonym of A. Wyatt Mann. He says that he used a pseudonym because at that time he was trying to infiltrate the government so that he could “bring down the entire kike system from within.”

Essentially what they do is learn the culture of whatever they're infiltrating, then use that to divide and demoralize the userbase there.

They never blatantly say shit like #Imwithher, instead they assume the facade of 'the real redpill', and attack whatever the target's ideals are with that.

It sounds crazy, because it is fucking crazy.

Europeans are literally being destroyed/killed because the leadership wants to get fucked(or wants to watch in the corner).

Is the reason they took in refugees more complicated than this, and you are just simplifying the situation for maximum headline effect? Because it seems to me there are easier ways to get their fix than importing these people en masse and having to deal with all of the political consequences

>Next time there is a BLM riot, get people(including Law Enforcement) to locate the Buses.
>Rioters being bused in creates a "false organic" that simply isn't there in the communities.
>But of course the public gets fooled.

I'll be ready. I've got a plan for getting an investigation going next opportunity that arises. I also encourage everyone to spread the word wherever they can (IRL is just as important) in order to educate the public about how these riots are not organic - bringing up the proof we have of Soros pumping $ into the Ferguson riots is a good way.

5bro,
Answer this question if you can: What kind of buses have they been using? I've been hunting down leads that take me to so far 3 different possibilities: 1 is greyhound type buses, 2 is airport shuttle type short buses, and 3 is white vans (think Ford Econoline)

If I knew what DHS was likely to be using it would go a long way

Mark my words, "we have to fight ISIS" Donald keeps repeating is NOT TRUE.

WE do NOT have to destroy ISIS, we only have to contain them and degrade them. Destroying requires a WHOLE OTHER LEVEL of commitment....that means boots on the ground again protecting ISRAEL from ISIS, which is not our job.

There are many ways to prevent ISIS from harming America.

Many ways that dont include boots on the ground or defending Israel.

Should I show you a map?

There is no reason ISIS in the ME threatens the USA.

LOOK AT A MAP.

We keep our borders and homeland security strong to filter out terrorists.

Thats all we NEED to do.

All we NEED to do is stop inflow into the US.

We do not NEED to destroy anything in the ME.

Its much more likely that they needed to import this many because of Europe declining birth rate and needing to keep the pension system alive, in my opinion.

thing is, there is literally zero reason to bring in immigrants en masse to have sex parties.

People do that all the time and it requires no immigration at all.

It's just too convoluted to be believable. Rich people fly in kidnapped africans for that same reason every day, it doesn't require foreign policy.

Buses are definitely coming from out of state.

If you look at the numbers of rioters coming in it should be easy to figure out the possible buses used.

Soros has alot of Dirt on the EU.

Thats called a invasion several thousand years ago.

Invading men either kill off the other men and take the women, or get defeated by the men that exist in that place.

Also a vast majority of those men..... are from radical groups such as ISIS.

At it's core, the Redeker Plan is a simple tool - the finer details of which will of course be adjusted to fit the specific situation at hand on a case by case basis - for allowing one group to expunge another when both occupy the same land and are so thoroughly mixed together as to be indistinguishable from one another strategically speaking.

Though the name will be different, this plan will be put into place in the near future. It is unavoidable at this point. Too much damage has been done and there is nowhere to go.

Friends, I'll throw you a bone on the buses.
Look for brand new looking Greyhound size (tour) buses.
They will be solid gloss white with no exterior markings.
Look for largish, sealed, dark tinted windows.

License plates will be vague ie. multi state transporter types.
Look for these in the very late night, early morning hours on the interstates.
You can't miss them, they stick out like a sore thumb.

"Community organizing" is done by the Tans who are basically the Jews of the Black community. They work together and do whatever they can to coordinate their efforts between cities.

I doubt many people are bussed in but at least the top-run of the protest groups are. You can tell who they are by at least one of the three definining charactoristics of the protest coordinators/foot-soldiers:
1) Tan

2) Black Women(easy to manipulate and thus make loyal tools)
3) Black fags(also easy to use since fags always backstab their own group's male members)

I'd guess its going to be Econolines then. A good way to find out is to see what assets Chicago Community organizers own. Just look up the organizations and see if there are any vans parked out back.

Rioters aren't bussed in, coordinators(probably many) are. BLM/Tans don't want rioters since burning shit to the ground actually has an effect. Tans just want Blacks to vent their anger without accomplishing anything but earning the Tans more money by getting political concessions.

The only reason the flags came down was because that stormroofer shot up Tans and their Black slaves in that Church and then did the "horrendous" act of implying that Tans are Blacks(something Tans HATE being accused of). Which was only ramped up because of the Tans. Those were Tans that got shot which is a huge deal.

If that was just some Blacks who got killed, it wouldn't've had all the protestors making a huge deal about a fucking flag. At the very least, the protests would've been about getting more money for "Social outreach" or some shit so that local Tans could make money and not have to compete with Blacks or Whites.

Tans are the Jews of the Black race. Hell, they don't even have population sources and just live in urban areas just like Jews. Been that way since even before the Civil War. At least a good bunch got hanged when the war started.

Update about the "Knowledge Bomb" threads Anonymous5 ID:0wbAs9Ey Sat 24 Sep 2016 14:44:27 No.90160282 ViewReplyOriginalReport
Knowledge Bomb v7 has some very important information.(so important, someone banned me for 24 hours so I could not actively reply to the thread like I usually do).

I was also going to reveal(in Knowledge Bomb v7) that a attack was going to happen very soon.(It ended up being the recent mall shooting)

Now with this covered I want to answer some of the common questions I get in my threads:

1) RP/LARP?

> No

2) Shill?

> No, I hate those guys.

3) Sources?

> Due to the subjects/information covered in each Knowledge Bomb thread, its the type of info that you can't really post on a website.

4) What's your goal?

Getting information out to people in hopefully good timeframes. Since what I cover tends to involve things that are going to happen over time.
All I have ever asked of /pol/ was to listen & spread the information covered in each Knowledge Bomb.

Also I'm not suicidal and in good health(both mentally & physically).

[The image is a close-up photograph of a person's face, focusing on the eyes and the upper part of the face. The person appears to be wearing a white garment, possibly a headscarf, and the face is partially obscured by the garment. The eyes are wide open, and the person's expression is one of sadness or distress. Overlaying the image is a quote in a language that appears to be Japanese, which reads: "Life seems to be a black and white movie about nothing, flickering silently on film. The movie is almost over." This quote is attributed to the artist Akihiko Arakawa, who is known for his work in the film industry. Below the quote, there is a smaller text that reads: "Suicide Note found in Akihiko Arakawa's 2007 film." This suggests that the quote is a reference to a film directed by Akihiko Arakawa, which was released in 2007. The style of the image is reminiscent of historical or classical art, with a focus on the face and the text, which is a common technique in art and literature to convey a message or evoke emotion. The use of the quote and the artist's name suggests that the image is intended to be a commentary on the film industry and the themes it explores.]

Hello Again Anon5!

So 1st off I assume you are refering to the episode of lone gunman which "predicted" the "plot" of the 9/11 attacks.

I have never seen Designated Suvivor but I am aware the term may have something to do with COG or rex84 type protocols.

In plain speak, are you saying you are seeing "buzz" regarding an attack which will disrupt the normal succession of power in USA?

[The image is a digital illustration featuring a character with a large, exaggerated face and a wide, open mouth. The character has a yellow body with a red tongue, and its eyes are blue with a slight smile. The character is wearing a black robe with a hood, and there is a halo-like effect around its head. The background is a detailed, ornate room with a vaulted ceiling and intricate carvings. There are several other characters in the background, also dressed in black robes with hoods, suggesting a group or a gathering. The style of the image is reminiscent of a fantasy or medieval setting, with a touch of humor through the exaggerated features of the character.]

The "knowledge bombs" are horseshit. Picrelated shows it all, it's quite enough to know where the world is, where it's going and what ALL the elites are up to.

1). There's no indication whatsoever the global elites are not in agreement on matters of principle. Sure, they are trying to cheat each other of shekels, but in general, they have a common plan for humanity.

2). They discuss and adjust these plans during not-so-secret meetings like Bilderberg, the Trilateral Commission, etc.

3). There will be no uprising in the West. The very idea is fucking dumb. It's already doomed: the westerners have grown too fat and too lazy to risk their $60k/year salaries, their BMWs and fancy homes and fight. Besides, the demographics indicates it's already too late. The old West is already gone; the remaining stragglers will just quietly die off in a matter of decades.

OP's a faggot.

I personally think that Hitler was really about destroying communism. That's who he rooted out even before the Jews. The Fascist right was a counter balance to the communist left. Once the Nazis were destroyed, that's when communism flourished.

If Hitler had backed off on the genocide shit, and parked his ass in the Kiev region for a few years and got his shit back together instead of charging into Russia, I think he would have won and the Communists would have been eternally destroyed long term.

Trusting some moron who says the elites are not an agreement and there will be an uprising that'll save the West is putting your hand in the sand. The western civilization is already gone, taken over by the oligarchs and their puppets - SJWs, terrorists, secret services and criminal gangs.

The demographics show that it will only be getting worse. It doesn't matter who wins some elections at this point, it's already a done deal. Though Trump might be able to prolong the agony somewhat - if he's not one of them too, that is.

The frog is wearing a red baseball cap with the text "MAKE AMERICA GREAT AGAIN" in white capital letters. The cap is slightly tilted to the left, and the frog's mouth is open, as if it's speaking or expressing an opinion. The frog is also wearing glasses with blue frames and a white paper or napkin in its hand, which is partially visible. The background of the image is black, which contrasts with the bright colors of the frog's cap and the green of its skin. The style of the image is cartoonish and seems to be a digital creation, possibly for a meme or a satirical representation.]

Do Rockefellers want to fuck over Rothschields and get all their shekels for themselves? You bet they do! This doesn't mean they don't have a common plan for the rest of us goyim that they've been implementing for many decades.

Gotta correct myself here: not "when it happens" (it's been happening for decades now, it's a process, like throwing a frog in a waterfull of cooker and slowly increasing the fire so it doesn't jump out till it's too late). "When it comes to fruition" would be the correct

phrasing.

I'm genuinely a little freaked out. Australian MSM had plenty of reports on the U.S. providing air cover for ISIS a few days ago, even with apologies from our government and reports on the Syrian soldiers that got hit.

I googled for U.S. MSM coverage, and it was all outright lies about Russia breaking the ceasefire by hitting aid trucks supplying Jihadists (the lie being they broke the ceasefire - not that they hit the medical and food trucks, which they did).

Even more disturbing, the images they used were from the White Helmets, an Al Qeada P.R. joint.

Even more disturbing - Netflix is releasing a Pro Al Qeada documentary about the White Helmets.

...Soros earlier bought a large chunk of Netflix.

Then this morning the media reports that they "hear" Russia was behind a massive Yahoo data breach that occured 2 years ago but only now is being released.

It feels like the wheels are in motion for a U.S. vs Russia war and no one is going to put the breaks on.

I would absolutely agree with OP. Some young girls holding a sign don't have a clue as to how the world actually works. They are just regurgitating the messages they get taught in school and on mainstream media and tv and....etc.
The elite own all the media company's, create the school cariculums and dream up the social engineering programs that trickle down and create this. Trust me, you get a group of very intelegence people together and remove all moral consequences from their decisions and let them dream up schemes to control and steer the population they come up with this sort of stuff. Open control will be opposed so it has to be subversive. We buy into it and then do it to ourselves

Anyway, could all just be a coincidence.

They're only using nationalistic spirits as leverage.

All the Kaczynski wants is getting the previous governments' head, especially Tusk's who he considers responsible for his brother's death. Everything happening over here are just means to an end, which is putting a "fair trial" for Tusk and getting him hanged.

I've been saying this since forever and lately even in media there are talks that PiS wants to dig up the Smolensk aircrash once again, except this time looking for "incompetently fulfilled duties". Last week our Defence Minister said Tusk said to copy into our press statements whatever the russian side said.

But this is off-topic completely, but don't lump us in with "nationalism"-surge, PiS is just

using it for personal means.

That's as big as the picture gets. All other conflicts are either petty infighting for more power between the powerful (who still maintain the single overall plan) or honest fights between their pawns.

When there's real fighting, players eventually change. A defeats B, and B is gone. The world's elites haven't changed for well over a century. Together, they rule supreme at least ever since they put their fucking eye-pyramid on US dollar.

Hey OP. Another angle to this i see is based on Hegelian dialectic. This is create a problem, let the problem manifest, offer solution to the problem you created to push your personal agenda. So let's ask:
Why bus in a bunch of protesters to a riot to worsen the situation?
Well, you bring in agitators from out of town and they will chimp out way harder than any local of the community. It's nothing to them and they get to go home consequence free afterwards. The murder of an "innocent" person. This will enrage everyone and is the catalyst of the event to push it to new levels.
Let the event carry on as an example of the loss of control and "chaos" to scare everyone.
Then the police are rolled in to shut down the problem. Solution has been offered and carried out.
Now it's just figuring out what exactly the end goal behind this whole chaos Majic ritual is. It won't be immediately obvious but there will be something to it.
My two cents on the subject

The whole fear of chaos is drilled into us when we should embrace it. Yes things will be bad and people will die but we will learn a huge lesson as a species and the chance for freedom will be there. I saw a bunch of buses when a huge group of protesters materialized out of nowhere on an ABC helicopter stream.

You said last night this is a bait and switch, is this a distraction so that cells can do something that will exacerbate the protests, such as turning on the power to the city by

destroying a generating station? Or is it so they can stealthily get away with something without being caught, like looting a bank, or a now-understaffed National Guard armory nearby with no police to respond in the area?

The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. The eyes are black with a white pupil, and the character's mouth is slightly open, revealing a brown tongue. The character's eyebrows are thick and dark, and the character's hair is green. The background of the image is a solid, light blue color. There are no texts or additional elements in the image. The style of the drawing is cartoonish and simplistic, with a focus on the character's facial expression.]

They are covering their face with one hand, which is positioned over their eyes. The person's posture suggests a moment of contemplation or distress. The background is indistinct, with a hint of a wall and a chair visible, but the focus is primarily on the person's face and upper body. There are no discernible texts or logos in the image. [The image depicts a fantastical scene with a knight standing on a red platform amidst a crowd of people. The knight, clad in a suit of armor, holds a shield in one hand and a sword in the other, suggesting readiness for battle. The crowd is densely packed, with many individuals wearing helmets and armor, indicating a significant event or gathering. The setting appears to be a historical or medieval-themed location, possibly a castle or fortress, with a hazy atmosphere suggesting a distance or time period. The colors are predominantly warm, with a reddish hue dominating the background, and the overall mood is one of tension and anticipation.]

Charlottefag here:

>> The riots going on are because Soro's BLM dog just got off the chain.

No they WERE goign on because there is a tense racial situation right now, spurred by useful idiots like Kaepernak and those who make money and wield power based on their claimed ability to keep the "neighborhood" from rioting. They have created an atmosphere where many assume that any time a cop shoots a black suspect, it is unjustified, often after proven otherwise. In that atmosphere, people in the black neighborhoods, at 3 in the morning, got swept up in rumors and social media shit and went berserk.

>> People were bused in en mass during the night, and are traveling to the city to loot.

That's a lie.

>> The person shot by police did in fact have a weapon and was about to try to kill one of the police.
had a handgun, according to Charlotte's black police chief who is widely respected in the black community. What his intentions were is unknown and pretty surely unknowable.

>> This riot is going to backfire on Hillary & the democrats spectacularly.

That is a dumb-ass thing to be worried about today.

>> Rumblings about national guard possibly being needed.

Presumably the Governor is taking steps to expedite their call-up if needed, but the chief and the mayor seem to be working well with leaders in the black neighborhoods to shut this down, riot-wise. It is unlikely the guard would be needed. Charlotte has a pretty good record of allowing peaceful protest, and of protesting peacefully. Even last noght, loud voices in the crowds were calling for the violence to stop, and by the end of the evening police were handing out water bottles to protesters and generally calm was being restored. The chief's statement affirming that a gun was found and that the book referred to in the social media rumors was not will help in that regard.

>> Possible ISIS cells setting things up around the city, using the riots as a distraction.

Oh fuck off...

Pick 2

Fuck off and die. Blacks are not your pawns you liberal piece of shit. When those 8 cops died, you knew the 'BLM' group died as Blacks didn't like being used. Now you're just trying to claim that everything is "blm" when its not.

Face it fag: Blacks are pissed and you're not getting your (((BLM))) label on them to constrain them. You should be the next victims of their rage since you're trying to co-opt them.

Probably. That's basically the MO for everything BLM does. They know full well that its going to backfire on the rioters which is why they only care about the cases that'll make protests look retarded.

Then they claim that "they didn't know" when they knew fucking all along. Tans don't want Blacks actually getting shit done. This is why they keep on trying to get them to vent off on humiliating shit while glossing over actual real cases of Blacks getting murdered by cops.

The BLM group deserves to be lynched by the Blacks they're abusing.

up to the 90ies Europes governemts used Neo-Nazi groups as their puppets. They

armed them, funded them, trained them and used them to kill people. Ultimaltely they created some flase flags to shut down their whole program such as the Bologna massacre (Gladio Network) and the Oktoberfest bombing (Wehrsportgruppe Hoffmann).

Times just changed. They found a new fool for their dirty work. Seeing what the Red Army fraction did they eventually jumped on the lefty train. Today Antifa and other leftwing groups are the usefull idots for the globalists. BLM is no different. They have the same field of operation and the same agenda. BLM is like 99% of Antifa if you ask me.

Tans hate Blacks. Face it: they tried to cause genocide in 1859 with John Brown. Black power leads to racism and racism leads to Tans suffering. Tans deserve to suffer.

A) Easily manipulated women?
B) Black fags who proudly backstab their race/group like all fags tend to do(see USSR's early foreign agent recruiting)?
or
C) Dupes?

Blacks want change and liberal faggots and Tans don't want that. BLM is just a group that exists to manipulate Blacks and force them to blow off steam so they won't have the pent up anger to do big things. Its pretty easy to manipulate pissed off people since all you have to do is get them to waste their energy on stupid shit that "somehow" keeps blowing up in their face.

BLM is the enemy of the Black race. The Blacks should be armed.

Black fags and easily manipulated Black women are the pawns of urban Tans. Both of them have fucked over Black men for decades. Black women and fags don't lead revolutions but they do poison "their" people.

Maybe those urbanfags in Minnesota should actually ask random Blacks what they think instead of telling them what to think. God I hope the organizers get their asses kicked by the people they're using as cannon fodder.

Tan African Americans are tan because their ancestors were often the children of their owners/masters in the old South and North. They moved north before the Civil War and have basically been fucking over Blacks for generations by using them as pawns while crippling their chances to succeed.

Light-skinned African Americans are NOT the same people as Blacks. They were living in northern White communities using the NAACP to keep Blacks stuck in the Deep South being harassed by the KKK. Tans are such pieces of shit that their selfish desire to never suffer from racism causes them to back-stab Blacks in order to keep their advancement from leading to competition and racism.

Tans remember getting lynched in NYC when the Civil War started. They will NEVER let Blacks succeed.

Whose campaign? If you're going to point to any particular person/group of people, you need a motive. If you can't come up with any motive convincing enough to indict a particular group of guilt, then there's no reason to suspect it's a destabilization campaign. If you think this refugee shit is an intentional campaign to destroy the West, you have to think there's a reason for it, otherwise you're just assuming things.

So what's the reason? Who benefits from the destruction of the most advanced societies in human history?

Knowledge Bomb. Building 7 & Flight 93. Anonymous5 ID:S7b0WD6Z Tue 20 Sep 2016 22:37:33 No.89666519 ViewReplyOriginalReport

Consider this abit of a "thank you" gift for listening to my other Knowledge Bombs so far.

> Building 7 was brought down by a demolition.

To understand why, consider which agencies were in that building & what possible documents were in it.

Now here is the juicy stuff.

People(some First responders & various government workers) were killed inside the building by a Spec Op's team. The fires inside it was from bodies being burnt and things being destroyed.

Bringing down the building(It was rigged to blow as a fail safe) was a way to cover the whole thing up. A call went out to det the charges.

Lets put it this way, everyone hears about the Twin Towers, but not what happened inside Building 7. 9/11 just gave the Spec Op's team a fantastic distraction and from how things went down, it was planned in advanced.

What or who ever was inside WTC7 was a top priority target for elimination.

The witnesses nearby WTC7 were threatened if they came forward about what they saw or heard near Building 7 before it "collapsed".

NYPD SWAT even responded, but you never hear anything about them on 9/11 do ya? In some 9/11 footage you can even see some of them around.

> Flight 93 was shot down.

Shouldn't be any surprise really.

It didn't crash into the ground, thats just where the debris landed.

Ok lets say you are right, there's still government protocols in place to keep places like this and whatever they contain from being compromised. That's all thos was, and I also agree that they shot down Flight 97, no sinister motives, the passengers get to be remembered as heroes and the government doesn't have to admit they shot down a plane full of americans, altough most people would agree it was the right thing to do.

Unfortunately like I said, theae discrepencies are what gives some of the more extreme theories teaction. Yes they are lying to us, that doesn't mean that other sources are automatically true.

1. What do you think about William Cooper? Was he murdered for exposing the cult of Isis on the radio?

2. Is the 'Olympians vs. Babylon' paradigm a good way to concieve of the two factions of globalists?

3. What is the relationship between Putin, the rest of the former KGB establishment, and today's incarnation of the comintern.

4. What is the relationship between the Western occultist societies and Eastern atheistic communism?

Im completely and utterly open to compelling evidence though. If you provide something actually material to back up this claim of a spec ops death squad in building 7, I will compeltely shift my viewpoint on this topic.

>Operation Ronces
This is quite interesting IMO, Operation Ronces is quite strong and this is speaking from an ex military.
Only way to bypass it would be to actually coordinate the slums riots with the PMC attacks. Slums people aren't famous for the discipline, PMC (from yesterday's thread and what you "know" are responsible for the marathon IMC explosion) aren't reliable either.
Now, French soldiers are one of the best trained in the world, every elite troop we have can throw the same results than amerifat's but with 1/2 the budget (GIGN>SWAT, paratroopers>seals, (though I agree Marines > French military)).
Why would some PMC, and especially ex french soldiers go through destroying France? Giving X million of dollar to someone that will blow up the global economy is retarded since dollars will be useless then.
I'll be honest, I might have believed some of what you've said yesterday, but I have big doubts about what you're saying now.

So MIC (Which is in no way as prevalent in the EU) think they can take over the world from their own troops? Have you no knowledge of how the western Roman Empire fell? Believing in mercenaries will is anyone's doom since they have loyalty over money, not your cause.
I agree that it is scary to see the Asian superpowers like India and China get at it since they are fuelled with patriotism and will go to such extent as to sacrifice whole towns and fuel the rage of the people through this propaganda (They killed our people, sure we did the same, but they killed OUR PEOPLE).

UK being attacked is a big nono, no sane people of the EU will ever accept this, the people of all of Europe will not accept it and this might make us go to war.

The SJWs really are tearing each other apart, and have been for some time now. If you ever take the time to observe these people closely, you will see how easily they set each other off. Half of the time they attack each other over accusations of internalized sexism, misandry, and issues over who should best represent their respective movements. Pic related; feminists, particularly of color, have been radicalized against Emma for years.

They will die a death not unlike the radicals of late 18th century France.

Now the 'innocent' muslims in the West denounce this publicly. But they secretly own red shoes but never wear them.

But don't go full autistic newfag and assume op is actually some sort of insider and everything he is saying is fact.

If op is legit he would agree with me. Any dump of real intel into an online forum is always accompanied with some disinfo or half truths by the poster to maintain plausible deniability and keep up the illusion that it might just be some guy guessing. It's not so much what the facts are in a high kevel leak, it's the ideas you are seeding into the enviroment that matters. Whether or not the info is entirely based in reality is irrelevant.

He is standing in front of a building with a stone facade and a fence. The whiteboard has the following text: "I need Feminism because I'm tired of feeling 'Unmanly' for my girlfriends' STRAP-ON." The handwriting is clear and legible, and the man's expression is neutral. The background shows a street with bicycles parked on the side and a person walking in the distance. The style of the image is informal and seems to capture a moment of protest or expression.]

Who are you voting for Anon5?

Will the North East see more terror attacks?

Does Hillary have Parkinsons? What is wrong with her (aside from being hillary)?

Will there be a JFK moment for Trump before or after he wins?

Will Obama and Soros/ globalist groups allow Hillary to lose? Will they suspend the election?

Can you send us a cool time stamp with your edc or something mysterious and interesting which could somehow be construed to increase your credibility for us?

Also thank you for the info. God bless you.

3) Many things health wise. Park is one of them. I don't know what will collapse first, Hillary or her campaign management.

4) If he does win, keeping him alive is much more better for the world, that includes the

globalists. He's getting more and more support from people "on the inside", while Hillary keeps getting more hate.

5) Obama hates Hillary, Soros pissed off alot of the globalists. The Election will happen.

[The image is a black and white manga panel featuring a character with large, expressive eyes and a prominent nose. The character has a large, curved ear and a prominent, curved neck. The character's hair is styled in a way that it appears to be flowing, and it is adorned with what looks like a necklace. The character's expression is intense, with a furrowed brow and a slight smile. In the upper right corner of the image, there is a speech bubble that reads "THAT'S BULLSHIT," which is a common expression of disbelief or disagreement. Below the speech bubble, there is another speech bubble that says "BUT I BELIEVE IT," suggesting a contrast between the character's disbelief and the character's belief in the statement. The background of the image is plain and white, which puts the focus on the character and the text within the speech bubbles. The style of the image is reminiscent of manga, with its black and white color scheme and the use of speech bubbles to convey dialogue.]

[The image depicts a surreal scene with a central pyramid-like structure that appears to be made of stone or concrete. The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar design and color scheme. Very important stuff I want to say this time around. so pay attention /pol/
____

> ISIS cells did the IED attacks. (which is why the media is covering it up, or trying to)

> The media is covering up attacks as "fireworks", "Transformers", "Gas Leaks". so watch out for this

> The Alabama pipeline leak was actually a ISIS attack on infrastructure.

> The media is covering it all up, and its pushing more people away from the MSM, and making people wake up.

> Obama wants to be out of the whitehouse, he is getting sloppy. He also knows Hillary would end his legacy if she became president and he still hates her beyond reason and doesn't want her to be president. He just wants to Golf.

> Soro's PMC/Black OP's are bringing ISIS leaders out of the middle east and setting them up in Europe and bringing them over the US-Mexico Border.

> Soro's Black OP's have been engaging US special forces on the ground.

> ISIS and other radical groups have been engaging Drug cartels in Mexico-south america.

> CTR(correct the record) funding is running dry and management is taking the money and running.

> Trump is gaining support from people on the "inside". Directly or indirectly more citizens see a positive future due to him. The polls are showing it & things like that.

> Even the Globalists understand that a Hillary presidency would fuck over alot of things and alot of people, so they very much don't like Hillary currently. They went from "We hate trump" to "We are So-So about Trump".

Important Intel. Spread the word.

It's not a matter of when, its a matter of how.

Everyone is shocked when a "lone wolf" attacks.......... but imagine everyones reaction when the whole wolf pack attacks.

9/11 killed around 3,000 people.

That number will be childs play to give a assessment due to how many ISIS cells & supporters came in the "refugee" waves.

It's not fear mongering either, the EU's military and intelligence agencies know this, and its going cause alot of EU people to die because of Feminist/SJW/PC culture not being stomped out.

Not a Robot.

I already mentioned Syria multiple times in past Knowledge Bomb posts.

The Recent Syrian bombing was done by Soro's Black Op's to give ISIS a edge in that area. They also wanted the US to be blamed so the US and Russia are more on edge in Syria.

Syria is such a clusterfuck of groups.

ISIS has already infiltrated first world systems
That was their main goal. While they are fighting in Syria, they are running an industrial scale indoctrination system, from which kids grow up and attempt to get high ranking positions within first world governments

A well funded PMC can get some equipment. With Soro's backing they are as strong as some EU armies.

Actually the reason why ISIS took over so fast was because of Soro's PMC's doing some spearhead operations.

Then figure out possible supply routes.

Then look where the tourist spots, gatherings and soft targets are.

Muslim worship locations are also a factor.

If you want to know "where will they attack", think where the most people are going to be clustered.

It's like showing a kid a bunch of icecreams, and asking him "which one do you want?".

The cat is looking directly at the camera, with its ears perked up and its whiskers clearly visible. The background of both images is a snowy forest, with trees covered in snow, suggesting a cold, wintry environment. The lighting in both images is soft, with the cat's fur appearing slightly mottled, which is typical of a light-colored cat. There are no texts or discernible brands in the image. The style of the image is a close-up portrait, focusing on the cat's features and the natural surroundings.

However, the biggest problem is that since it's an ideology motivated movement, lone wolves and independent cells are inevitable. I was once managed to 'infiltrate' a sympathizer and he showing me his home made rifle.

The "Refugees" are from radical groups for the most part.

ISIS leaders are slowly relocating to the EU and some to the south of the US border.

[The image is a screenshot of a news article or a photograph, featuring a man in a formal suit and tie. The man appears to be speaking or addressing an audience, as indicated by his posture and the presence of a microphone. He is wearing sunglasses with pixelated black squares on the lenses, which suggests a humorous or satirical context. The background is blurred, but it seems to be an indoor setting with a flag and a wooden paneling, possibly a governmental or official building. The text in the image reads: "President Assad is not worried about Syrian unrest, gov't is dealing with it." This suggests that the man is addressing a situation related to the Syrian government's handling of unrest within the country. The text is in English and is presented in a bold, capitalized font, which is typical for news articles or headlines. The style of the image is a combination of a photograph and a graphic, with the photograph capturing the man's face and the text providing context. The pixelated glasses add a playful or satirical element to the image, contrasting with the serious tone of the text. The overall composition of the image suggests it is meant to be a visual representation of a news story or a meme.]

Technique #3 - 'TOPIC DILUTION'

Topic dilution is not only effective in forum sliding it is also very useful in keeping the forum readers on unrelated and non-productive issues. This is a critical and useful technique to cause a 'RESOURCE BURN.' By implementing continual and non-related postings that distract and disrupt (trolling) the forum readers they are more effectively stopped from anything of any real productivity. If the intensity of gradual dilution is intense enough, the readers will effectively stop researching and simply slip into a 'gossip mode.' In this state they can be more easily misdirected away from facts towards uninformed conjecture and opinion. The less informed they are the more effective and easy it becomes to control the entire group in the direction that you would desire the group to go in. It must be stressed that a proper assessment of the psychological capabilities and levels of education is first determined of the group to determine at what level to 'drive in the wedge.' By being too far off topic too quickly it may trigger censorship by a forum moderator.

[The image is a graphic representation of a pyramid with a dark background, featuring a central triangle with a large eye at the top, symbolizing the Illuminati. The pyramid is divided into three levels, each labeled with a different organization or entity: "THE NEW WORLD ORDER," "WORLD FINANCIAL CONTROL," and "WORLD POPULATION CONTROL." Each level is further divided into smaller sections, each with a different color and text, indicating the specific functions or areas of control. At the bottom of the pyramid, the text "YOU ARE HERE" is written in white, with an arrow pointing to the left, suggesting that the viewer is at the bottom of the pyramid. The pyramid is designed to represent a hierarchy of control, with the eye at the top symbolizing the Illuminati, and the pyramid itself representing the control of the world's resources, institutions, and populations. The colors used in the pyramid are red, black, and white, which are often associated with power, authority, and secrecy.]

It's a path you have to find on your own

You cant just ask me to tell you or else I might just be a jew and mislead you into insanity

You have to raise your awareness level and when you are ready, you will know how to find me or someone like me again

The stuff is INSANE to your average person, even the so called "redpilled" ones

Sorry, but you can't just ask and get told it. You must prepare yourself and when you are ready for it it will come to you. Don't trust what you read here remember?

> EU is going to break apart & people are going to retake Europe from ISIS/"refugees".

> UN is going to have members leaving & will eventually go away.

> Obama & Bill do not want Hillary to become president, but don't mind watching her campaign run into the ground.

> More and more people on the "inside" are favoring Trump.

> ISIS & other terrorist groups have armies of extremists in the EU waiting to do all out war. Also ISIS is taking over drug cartels in mexico/south america and preping to attack the US in various locations and mexico city during the EU attack.

> Soro's plans have stepped on the feet of alot of Globalist groups, and they are pissed off at him and his family.

> SJW/PC culture groups across the US & EU are working with terrorist groups, by weakening society & trafficing them in.

Everything I'm saying is either happening or will happen.

The older globalist groups are dying out/retiring, and the newer ones(who want better advancements in tech & people being proud of the places they come from) are gaining more traction.

Which is why you see the OWO(Old World Order) falling apart, and a NWO(New World Order) breaking through.

Hillary's Health is crumbling, So is her campaign and its management staff. Her polls are dropping rapidly and frankly her "supporters" are not actually going to physically vote for her.

Bill doesn't want Hillary to become president. The Clinton Foundation(something he loves & what he spent his post presidency building) would have to be shut down or weakened. He wants to spend time with his family & be around for his grandchildren.

The Obama's hate Hillary still and do not want her in the White house. The biggest reason is that it would erase there legacy. Also how even they know trump would be the better president(Obama wants to retire and relax on some golf courses(trump knows many good ones) at this point.)

Both Obama & Bill do not want Hillary to become president, but they don't mind her running her campaign into the ground rapidly.

The Media has effectively done financial suicide by doubling down for Hillary & the DNC.

More and more people on the "inside", are favoring Trump and want him to win.

CTR(Correct The Record) is not paying people doing the posting, only management & management is in shambles due to pressure from "the top".

The EU is going to break up very soon, People are taking there countries back & fighting back against the Soro's funded ISIS invasion of Europe.

The UN has effectively become the League of Nations 2.0, meaning that countries are going to rapidly be leaving it.

Watch the "world stage" carefully /pol/. All I'm saying is true or is in progress.

Vestigia Araneae – Epitaphia Digitalia – Project AngelBook – Volume IX - Part 16

By Ezekiel Redik Yarbrough -
(DBM ECLIPZE)

The following books are comprised of direct, unaltered copies from Pastebin, some now deleted, some only accessible through mirror networks or deep links scattered across the dark web. Many of these links were discovered in abandoned onion lists, dead forum dumps, or esoteric directories tucked into archived darknet files.
These pastes were never meant to last.
Some were deleted within hours of being posted.
Others were buried under thousands of lines of spam, encrypted scripts, or meaningless noise.
But buried in the noise were real transmissions: occult formulas, grimoire fragments, astral logs, AI prophecy files, digital summoning protocols, and anonymous rants from souls who had either touched something unspeakable—or were trying to.
I did not write any of this.
I did not censor, edit, or “correct” it.
I simply retrieved it, cleaned the formatting for readability, and enshrined it in print—so it would never be wiped again.
This is Pastebin as Scripture.
The chan-post as Codex.
The uncurated underbelly of the occult internet, finally given physical permanence.
Let this serve as both evidence and artifact:
a living record of the madness, brilliance, paranoia, and revelation that once flowed through anonymous paste sites—before it was deemed too strange to index, too dangerous to preserve, or too fractured to matter.
Now it matters.
Now it’s immortal.

Bingo. Autism is a developmental disorder. Introverted kids who mostly stayed indoors are all basically autistic or full blown sociopaths because most of their social interaction comes from behind a screen where you don't have microexpressions and sheeeit from your counterpart.

It seems crazy to people on the outside, but its very well known on the inside.

It sounds crazy, because it is fucking crazy.

Europeans are literally being destroyed/killed because the leadership wants to get fucked(or wants to watch in the corner).

I'll be ready. I've got a plan for getting an investigation going next opportunity that arises. I also encourage everyone to spread the word wherever they can (IRL is just as important) in order to educate the public about how these riots are not organic - bringing up the proof we have of Soros pumping $ into the Ferguson riots is a good way.

5bro,
Answer this question if you can: What kind of buses have they been using? I've been hunting down leads that take me to so far 3 different possibilities: 1 is greyhound type buses, 2 is airport shuttle type short buses, and 3 is white vans (think Ford Econoline)

Mark my words, "we have to fight ISIS" Donald keeps repeating is NOT TRUE.

WE do NOT have to destroy ISIS, we only have to contain them and degrade them. Destroying requires a WHOLE OTHER LEVEL of commitment....that means boots on the ground again protecting ISRAEL from ISIS, which is not our job.

There are many ways to prevent ISIS from harming America.

Many ways that dont include boots on the ground or defending Israel.

Should I show you a map?

There is no reason ISIS in the ME threatens the USA.

LOOK AT A MAP.

We keep our borders and homeland security strong to filter out terrorists.

Thats all we NEED to do.

All we NEED to do is stop inflow into the US.

We do not NEED to destroy anything in the ME.

Its much more likely that they needed to import this many because of Europe declining birth rate and needing to keep the pension system alive, in my opinion.

At it's core, the Redeker Plan is a simple tool - the finer details of which will of course be adjusted to fit the specific situation at hand on a case by case basis - for allowing one group to expunge another when both occupy the same land and are so thoroughly mixed together as to be indistinguishable from one another strategically speaking.

Though the name will be different, this plan will be put into place in the near future. It is unavoidable at this point. Too much damage has been done and there is nowhere to go.

Look for brand new looking Greyhound size (tour) buses.
They will be solid gloss white with no exterior markings.
Look for largish, sealed, dark tinted windows.
License plates will be vague ie. multi state transporter types.
Look for these in the very late night, early morning hours on the interstates.

"Community organizing" is done by the Tans who are basically the Jews of the Black community. They work together and do whatever they can to coordinate their efforts between cities.

I doubt many people are bussed in but at least the top-run of the protest groups are. You can tell who they are by at least one of the three definining charactoristics of the protest coordinators/foot-soldiers:
1) Tan
2) Black Women(easy to manipulate and thus make loyal tools)
3) Black fags(also easy to use since fags always backstab their own group's male members)

I'd guess its going to be Econolines then. A good way to find out is to see what assets Chicago Community organizers own. Just look up the organizations and see if there are any vans parked out back.

>Is David Duke a (((Soros))) plant? Asking because of BLM wanting to take down the Jackson statue in NOLA, you've probably already heard of it.
Won't happen.

The only reason the flags came down was because that stormroofer shot up Tans and their Black slaves in that Church and then did the "horrendous" act of implying that Tans are Blacks(something Tans HATE being accused of). The Southern racists were just fine with losing the flag because they know that the Tans are the only things keeping Blacks out of their communities.

Which was only ramped up because of the Tans. Those were Tans that got shot which is a huge deal.

If that was just some Blacks who got killed, it wouldn't've had all the protestors making a huge deal about a fucking flag. At the very least, the protests would've been about getting more money for "Social outreach" or some shit so that local Tans could make money and not have to compete with Blacks or Whites.

Tans are the Jews of the Black race. Hell, they don't even have population sources and just live in urban areas just like Jews. Been that way since even before the Civil War. At least a good bunch got hanged when the war started.

Update about the "Knowledge Bomb" threads Anonymous5 ID:0wbAs9Ey Sat 24 Sep 2016 14:44:27 No.90160282 ViewReplyOriginalReport
Knowledge Bomb v7 has some very important information.(so important, someone

banned me for 24 hours so I could not actively reply to the thread like I usually do).

I was also going to reveal(in Knowledge Bomb v7) that a attack was going to happen very soon.(It ended up being the recent mall shooting)

Now with this covered I want to answer some of the common questions I get in my threads:

1) RP/LARP?

> No

2) Shill?

> No, I hate those guys.

3) Sources?

> Due to the subjects/information covered in each Knowledge Bomb thread, its the type of info that you can't really post on a website.

4) What's your goal?

Getting information out to people in hopefully good timeframes. Since what I cover tends to involve things that are going to happen over time.
All I have ever asked of /pol/ was to listen & spread the information covered in each Knowledge Bomb.

Also I'm not suicidal and in good health(both mentally & physically).

He's not legit, look at previous threads. He consistently dismisses anyone that ask for proof as shills. He's not larping in good faith. I believe it's more a tactic of singling out anon's by crazy sourceless claims on social media. His insistence of having everyone spread the information instead of doing it himself adds to it. We're relatively anonymous here. Making accounts etc makes us less so. Not everyone is behind 7 proxies like me.

[The image depicts a surreal scene with a central pyramid-like structure that appears to be made of stone or concrete. The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar design and color scheme. The background is a gradient of purple and pink hues, with a gradient of blue at the bottom, suggesting a twilight or dawn setting. The overall composition of the image conveys a sense of mystery and wonder, with the central pyramid being the focal point. There are no discernible texts or inscriptions within the image. The style of the image is digital art, with a focus on surreal and fantastical elements.]

Charlotte Riots(Not "protests") are backfiring massively on:

> BLM
> MSM
> Hillary
> Democrats
> SJW's/Liberals

What you are seeing is only the tip of the iceberg.

The Rioters were bussed in the night before. (Obama has connections to BLM)

The person shot did infact have a gun, not a "book".

> The show Designated Survivor might have some "Lone Gunman" type stuff.

> Indi-Paki war is trying to be created by Soro's funded PMC/Black Op's.

> SJW groups are to go to battle with eachother, and that includes inside Hillary's campaign.

> "London bridges come falling down".

> Trump is gaining more support daily, including those who are in high places.While Hillary is losing support daily.

> The strongest ally of ISIS is the MSM PC narratives. Never believe them. More IED's coming.

> Operation Hornets Nest. (Nuke Sub or Bomber hits Mecca.)

> ISIS is coming in from Canada, since the south is proactively being watched by various agencies on both sides of the border due to a possible threat to Mexico City.

[The image is a close-up photograph of a person's face, focusing on the eyes and the upper part of the face. The person appears to be wearing a white garment, possibly a headscarf, and the face is partially obscured by the garment. The eyes are wide open, and the person's expression is one of sadness or distress. Overlaying the image is a

quote in a language that appears to be Japanese, which reads: "Life seems to be a black and white movie about nothing, flickering silently on film. The movie is almost over." This quote is attributed to the artist Akihiko Arakawa, who is known for his work in the film industry. Below the quote, there is a smaller text that reads: "Suicide Note found in Akihiko Arakawa's 2007 film." This suggests that the quote is a reference to a film directed by Akihiko Arakawa, which was released in 2007. The style of the image is reminiscent of historical or classical art, with a focus on the face and the text, which is a common technique in art and literature to convey a message or evoke emotion. The use of the quote and the artist's name suggests that the image is intended to be a commentary on the film industry and the themes it explores.]

So 1st off I assume you are refering to the episode of lone gunman which "predicted" the "plot" of the 9/11 attacks.

I have never seen Designated Suvivor but I am aware the term may have something to do with COG or rex84 type protocols.

In plain speak, are you saying you are seeing "buzz" regarding an attack which will disrupt the normal succession of power in USA?

A lot of our politicians "support terrorist networks" (domestically at least) by shipping in terrorists.

If you ship in people from regions that produce terrorists, then you don't do dick to check their backgrounds, then fuck yeah you are helping build terrorist networks, no hyperbole.

The "knowledge bombs" are horseshit. Picrelated shows it all, it's quite enough to know where the world is, where it's going and what ALL the elites are up to.

1). There's no indication whatsoever the global elites are not in agreement on matters of principle. Sure, they are trying to cheat each other of shekels, but in general, they have a common plan for humanity.

2). They discuss and adjust these plans during not-so-secret meetings like Bilderberg, the Trilateral Commission, etc.

3). There will be no uprising in the West. The very idea is fucking dumb. It's already doomed: the westerners have grown too fat and too lazy to risk their $60k/year salaries, their BMWs and fancy homes and fight. Besides, the demographics indicates it's already too late. The old West is already gone; the remaining stragglers will just quietly die off in a matter of decades.

OP's a faggot.

If Hitler had backed off on the genocide shit, and parked his ass in the Kiev region for a few years and got his shit back together instead of charging into Russia, I think he would have won and the Communists would have been eternally destroyed long term.

Trusting some moron who says the elites are not an agreement and there will be an uprising that'll save the West is putting your hand in the sand. The western civilization is

already gone, taken over by the oligarchs and their puppets - SJWs, terrorists, secret services and criminal gangs.

The demographics show that it will only be getting worse. It doesn't matter who wins some elections at this point, it's already a done deal. Though Trump might be able to prolong the agony somewhat - if he's not one of them too, that is.

The frog is also wearing glasses with blue frames and a white paper or napkin in its hand, which is partially visible. The background of the image is black, which contrasts with the bright colors of the frog's cap and the green of its skin. The style of the image is cartoonish and seems to be a digital creation, possibly for a meme or a satirical representation.]

Do Rockefellers want to fuck over Rothschields and get all their shekels for themselves? You bet they do! This doesn't mean they don't have a common plan for the rest of us goyim that they've been implementing for many decades.

Gotta correct myself here: not "when it happens" (it's been happening for decades now, it's a process, like throwing a frog in a waterfull of cooker and slowly increasing the fire so it doesn't jump out till it's too late). "When it comes to fruition" would be the correct phrasing.

Yeah, of course, not money, power. They'd be happy to steal each other's power. That they are allowed to fuck each other over, doesn't mean anybody else is allowed that too. They are obviously together as far as global plans are concerned.

I'm genuinely a little freaked out. Australian MSM had plenty of reports on the U.S. providing air cover for ISIS a few days ago, even with apologies from our government and reports on the Syrian soldiers that got hit.

I googled for U.S. MSM coverage, and it was all outright lies about Russia breaking the ceasefire by hitting aid trucks supplying Jihadists (the lie being they broke the ceasefire - not that they hit the medical and food trucks, which they did).

Even more disturbing, the images they used were from the White Helmets, an Al Qeada P.R. joint.

Even more disturbing - Netflix is releasing a Pro Al Qeada documentary about the White Helmets.

...Soros earlier bought a large chunk of Netflix.

Then this morning the media reports that they "hear" Russia was behind a massive Yahoo data breach that occured 2 years ago but only now is being released.

It feels like the wheels are in motion for a U.S. vs Russia war and no one is going to put the breaks on.

I would absolutely agree with OP. Some young girls holding a sign don't have a clue as to how the world actually works. They are just regurgitating the messages they get taught in school and on mainstream media and tv and....etc.
The elite own all the media company's, create the school cariculums and dream up the social engineering programs that trickle down and create this. Trust me, you get a group of very intelegence people together and remove all moral consequences from their decisions and let them dream up schemes to control and steer the population they come up with this sort of stuff. Open control will be opposed so it has to be subversive. We buy into it and then do it to ourselves

They're only using nationalistic spirits as leverage.

All the Kaczynski wants is getting the previous governments' head, especially Tusk's who he considers responsible for his brother's death. Everything happening over here are just means to an end, which is putting a "fair trial" for Tusk and getting him hanged.

I've been saying this since forever and lately even in media there are talks that PiS wants to dig up the Smolensk aircrash once again, except this time looking for "incompetently fulfilled duties". Last week our Defence Minister said Tusk said to copy into our press statements whatever the russian side said.

But this is off-topic completely, but don't lump us in with "nationalism"-surge, PiS is just using it for personal means.

That's as big as the picture gets. All other conflicts are either petty infighting for more power between the powerful (who still maintain the single overall plan) or honest fights between their pawns.

When there's real fighting, players eventually change. A defeats B, and B is gone. The world's elites haven't changed for well over a century. Together, they rule supreme at least ever since they put their fucking eye-pyramid on US dollar.

Hey OP. Another angle to this i see is based on Hegelian dialectic. This is create a problem, let the problem manifest, offer solution to the problem you created to push your personal agenda. So let's ask:
Why bus in a bunch of protesters to a riot to worsen the situation?
Well, you bring in agitators from out of town and they will chimp out way harder than any local of the community. It's nothing to them and they get to go home consequence free afterwards. The murder of an "innocent" person. This will enrage everyone and is the catalyst of the event to push it to new levels.
Let the event carry on as an example of the loss of control and "chaos" to scare everyone.
Then the police are rolled in to shut down the problem. Solution has been offered and carried out.
Now it's just figuring out what exactly the end goal behind this whole chaos Majic ritual is. It won't be immediately obvious but there will be something to it.
My two cents on the subject

Yeah that's my problem with these threads.

Some newfag gets on the chans and decides he'll be really cool if he can make threads that hit the bump limit.

Do you really expect me to believe that either the US or Russia are going to nuke Mecca? Give me a break.

Lol.
Kek is a a very interesting thing. There is an actual power to groups of people all aligning their will towards an end. People have primal fears and they are used to manipulate us and enslave us. The whole fear of chaos is drilled into us when we should embrace it. Yes things will be bad and people will die but we will learn a huge lesson as a species and the chance for freedom will be there. The way the world is right now is a giant slave plantation.

I have presented it, and watched it being presented many times in the past. I came to the conclusion that it's not that people can't help themselves and society, it's that they simply don't want to do it enough. When you finally get a firm grasp of the concept you get to see just how imperfect you really are (myself guilty as charged). Still the fight goes on, and we're waiting on you. Sorry for the cryptic talk, it's for the better. And I'm not trolling one bit.

I saw a bunch of buses when a huge group of protesters materialized out of nowhere on an ABC helicopter stream.

You said last night this is a bait and switch, is this a distraction so that cells can do something that will exacerbate the protests, such as turning on the power to the city by destroying a generating station? Or is it so they can stealthily get away with something without being caught, like looting a bank, or a now-understaffed National Guard armory nearby with no police to respond in the area?

The eyes are black with a white pupil, and the character's mouth is slightly open, revealing a brown tongue. The character's eyebrows are thick and dark, and the character's hair is green. The background of the image is a solid, light blue color. There are no texts or additional elements in the image. The style of the drawing is cartoonish and simplistic, with a focus on the character's facial expression.]

Yes the EU is pretty cucked but I'm not afraid that our women will run off with some shitskins. I don't know who spread this meme but its just a meme, mostly cherry-picked.

I can just talk from my own preception that it doesn't happen here where I live. But why should it happen in other EU countries? If there is another Anon who has noticed that women in his or her country are running off with shitskins i would be really surpirsed. Im more afraid that muzzies will riot, plant bombs and rape. Thats the reason why I'm in this thread.

[The image shows a close-up of a robotic arm with a metallic body and a gray, textured surface. The arm is equipped with a large, round head with two large, round, black eyes and a small, rectangular mouth. The eyes are illuminated by a series of small, circular lights. The arm is connected to a smaller, rectangular, gray object that appears to be a control panel or a display. The background is a gradient of gray, with a hint of a blue sky or sky-like backdrop. The style of the image is a realistic photograph with a focus on the mechanical details of the robotic arm. There are no visible texts or discernible brands in the image.]

The knight, clad in a suit of armor, holds a shield in one hand and a sword in the other, suggesting readiness for battle. The crowd is densely packed, with many individuals wearing helmets and armor, indicating a significant event or gathering. The setting appears to be a historical or medieval-themed location, possibly a castle or fortress, with a hazy atmosphere suggesting a distance or time period. Charlottefag here:

>> The riots going on are because Soro's BLM dog just got off the chain.

No they WERE goign on because there is a tense racial situation right now, spurred by useful idiots like Kaepernak and those who make money and wield power based on their claimed ability to keep the "neighborhood" from rioting. They have created an atmosphere where many assume that any time a cop shoots a black suspect, it is unjustified, often after proven otherwise. In that atmosphere, people in the black neighborhoods, at 3 in the morning, got swept up in rumors and social media shit and went berserk.

>> People were bused in en mass during the night, and are traveling to the city to loot.

That's a lie.

>> The person shot by police did in fact have a weapon and was about to try to kill one of the police.
had a handgun, according to Charlotte's black police chief who is widely respected in the black community. What his intentions were is unknown and pretty surely unknowable.

>> This riot is going to backfire on Hillary & the democrats spectacularly.

That is a dumb-ass thing to be worried about today.

>> Rumblings about national guard possibly being needed.

Presumably the Governor is taking steps to expedite their call-up if needed, but the chief and the mayor seem to be working well with leaders in the black neighborhoods to shut this down, riot-wise. It is unlikely the guard would be needed. Charlotte has a pretty good record of allowing peaceful protest, and of protesting peacefully. Even last noght, loud voices in the crowds were calling for the violence to stop, and by the end of the evening police were handing out water bottles to protesters and generally calm was being restored. The chief's statement affirming that a gun was found and that the book referred to in the social media rumors was not will help in that regard.

>> Possible ISIS cells setting things up around the city, using the riots as a distraction.

Oh fuck off...

Probably. That's basically the MO for everything BLM does. They know full well that its going to backfire on the rioters which is why they only care about the cases that'll make protests look retarded.

Then they claim that "they didn't know" when they knew fucking all along. Tans don't want Blacks actually getting shit done. This is why they keep on trying to get them to vent off on humiliating shit while glossing over actual real cases of Blacks getting murdered by cops.

up to the 90ies Europes governemts used Neo-Nazi groups as their puppets. They armed them, funded them, trained them and used them to kill people. Ultimaltely they created some flase flags to shut down their whole program such as the Bologna massacre (Gladio Network) and the Oktoberfest bombing (Wehrsportgruppe Hoffmann).

Times just changed. They found a new fool for their dirty work. Seeing what the Red Army fraction did they eventually jumped on the lefty train. Today Antifa and other leftwing groups are the usefull idots for the globalists. BLM is no different. They have the same field of operation and the same agenda. BLM is like 99% of Antifa if you ask me.

A) Easily manipulated women?
B) Black fags who proudly backstab their race/group like all fags tend to do(see USSR's early foreign agent recruiting)?
or
C) Dupes?

Blacks want change and liberal faggots and Tans don't want that. BLM is just a group that exists to manipulate Blacks and force them to blow off steam so they won't have the pent up anger to do big things. Its pretty easy to manipulate pissed off people since all you have to do is get them to waste their energy on stupid shit that "somehow" keeps blowing up in their face.

BLM is the enemy of the Black race. The Blacks should be armed.

Black fags and easily manipulated Black women are the pawns of urban Tans. Both of them have fucked over Black men for decades. Black women and fags don't lead revolutions but they do poison "their" people.

Maybe those urbanfags in Minnesota should actually ask random Blacks what they think instead of telling them what to think. God I hope the organizers get their asses kicked by the people they're using as cannon fodder.

[The image is a close-up photograph of a dog's face. The dog has a fluffy, light brown coat with a mix of darker and lighter shades. The dog's eyes are large and round, with a slight droop in the eyelashes. The nose is black and appears to be slightly curved. The dog's mouth is slightly open, revealing its teeth, which are white with some brownish stains. The fur on the dog's face is fluffy and appears to be of a medium length. The background of the image is not clearly visible, but it does not distract from the main subject of the photo. There are no texts or discernible brands in the image. The style of the image is a straightforward, candid photograph, likely taken for a pet owner's personal collection or for a social media post.]

Also, quit trying to claim that the BLM or the Nation of Islam are terroist organizations. The Nation of Islam is coopted by the Farakon faggot but the followers are more American than most people realize. The BLM is just a bunch of urbanfags trying to use Blacks for the benefit of Tans.

Tans are literally the Jews of the African American community. All they do is use the Blacks and then get paid by the government. "Muh programs" only HIRE Tans. Affirmative Action only exists to give TANS jobs/degrees. Racial quotas are for the benefit of TANS.

Tans are the leach that is sucking the Blacks dry.

Tan African Americans are tan because their ancestors were often the children of their owners/masters in the old South and North. They moved north before the Civil War and have basically been fucking over Blacks for generations by using them as pawns while crippling their chances to succeed.

Light-skinned African Americans are NOT the same people as Blacks. They were living in northern White communities using the NAACP to keep Blacks stuck in the Deep South being harassed by the KKK. Tans are such pieces of shit that their selfish desire to never suffer from racism causes them to back-stab Blacks in order to keep their advancement from leading to competition and racism.

Tans remember getting lynched in NYC when the Civil War started. They will NEVER let Blacks succeed.

Whose campaign? If you're going to point to any particular person/group of people, you need a motive. If you can't come up with any motive convincing enough to indict a particular group of guilt, then there's no reason to suspect it's a destabilization campaign. If you think this refugee shit is an intentional campaign to destroy the West, you have to think there's a reason for it, otherwise you're just assuming things.

So what's the reason? Who benefits from the destruction of the most advanced societies in human history?

Consider this abit of a "thank you" gift for listening to my other Knowledge Bombs so far.

> Building 7 was brought down by a demolition.

To understand why, consider which agencies were in that building & what possible documents were in it.

Now here is the juicy stuff.

People(some First responders & various government workers) were killed inside the building by a Spec Op's team. The fires inside it was from bodies being burnt and things being destroyed.

Bringing down the building(It was rigged to blow as a fail safe) was a way to cover the whole thing up. A call went out to det the charges.

Lets put it this way, everyone hears about the Twin Towers, but not what happened inside Building 7. 9/11 just gave the Spec Op's team a fantastic distraction and from how things went down, it was planned in advanced.

What or who ever was inside WTC7 was a top priority target for elimination.

The witnesses nearby WTC7 were threatened if they came forward about what they saw or heard near Building 7 before it "collapsed".

NYPD SWAT even responded, but you never hear anything about them on 9/11 do ya? In some 9/11 footage you can even see some of them around.

> Flight 93 was shot down.

Shouldn't be any surprise really.

It didn't crash into the ground, thats just where the debris landed.

2) The government is extremely incompetent with all the money simply going into someone's pockets while everyone else is just a mindless bureaucrat.

That's all thos was, and I also agree that they shot down Flight 97, no sinister motives, the passengers get to be remembered as heroes and the government doesn't have to admit they shot down a plane full of americans, altough most people would agree it was the right thing to do.

Like past ones, this one should be very interesting and give some intel.

> SJW groups are fighting internally in Hillary's campaign and bringing it down. The campaign is fracturing due to how many groups want to be the sole special snowflake.

> ISIS has a expansive network in the US, rivaling the EU network. The IED attacks(and there will be more attacks, some very deadly) are just testing the waters.

> Sweden is becoming a hotbead for Radical groups.(Blonde hair, blue eyes, and blood everywhere)

> More people in power(on the "inside") are wanting Trump to win. .

> CTR & Hillary's campaign turned out to be the worse investment for the globalist in recent political history.

> Soros PMC/Black Op's are trying to trigger a Paki-Indi-Chinese war by attacking bases.

> The media's pathetic spin cycle is backfiring spectacularly. MSM is discrediting itself rapidly

> EU is going to break apart.

> UN troops will invade UK, causing NATO to engage them and the UN will be dissolved shortly there after.

> SJW movements are going to violently clash with eachother, it will escalate from social media to the streets(Get the popcorn out)

It was done by Soros Black Op's/PMC to frame elements in the Turkish government and to try to turn Turkey into Syria/Libya 2.0 if they succeeded in the coup by then having rapid ISIS attacks around Turkey among other things.

This is quite interesting IMO, Operation Ronces is quite strong and this is speaking from an ex military.
Only way to bypass it would be to actually coordinate the slums riots with the PMC attacks. Slums people aren't famous for the discipline, PMC (from yesterday's thread and what you "know" are responsible for the marathon IMC explosion) aren't reliable either.
Now, French soldiers are one of the best trained in the world, every elite troop we have can throw the same results than amerifat's but with 1/2 the budget (GIGN>SWAT, paratroopers>seals, (though I agree Marines > French military)).
Why would some PMC, and especially ex french soldiers go through destroying France? Giving X million of dollar to someone that will blow up the global economy is retarded since dollars will be useless then.
I'll be honest, I might have believed some of what you've said yesterday, but I have big doubts about what you're saying now.

I agree that it is scary to see the Asian superpowers like India and China get at it since they are fuelled with patriotism and will go to such extent as to sacrifice whole towns and fuel the rage of the people through this propaganda (They killed our people, sure we did the same, but they killed OUR PEOPLE).
UK being attacked is a big nono, no sane people of the EU will ever accept this, the people of all of Europe will not accept it and this might make us go to war.

The SJWs really are tearing each other apart, and have been for some time now. If you ever take the time to observe these people closely, you will see how easily they set each other off. Half of the time they attack each other over accusations of internalized sexism, misandry, and issues over who should best represent their respective movements. Pic related; feminists, particularly of color, have been radicalized against Emma for years.

They will die a death not unlike the radicals of late 18th century France.

Idk, guys, but the more I read this, the more it sounds like speculation.

I've skimmed the two other knowledge bombs and I can agree with some of these things, but some such as:

> EU is going to break apart.

> UN troops will invade UK, causing NATO to engage them and the UN will be dissolved shortly there after.

> SJW movements are going to violently clash with eachother, it will escalate from social media to the streets(Get the popcorn out)

Sound like pure speculation. Sure, you can predict these things, but any guy that has lurked here for more than a few weeks and has paid attention to things other than rare Pepes can do this. Heck, even people who don't know what /pol/ is can do this, if they have enough knowledge.

Now the 'innocent' muslims in the West denounce this publicly. But they secretly own red shoes but never wear them.

When the cells awaken and they start taking cities block by block, they'll all put on their red shoes and walk out the door to join in.

The SJW are about to tear each other apart is not speculation
it's the oppression (I can't remember the term but it were they are in terms of their oppression) pyramid or some shit
Right now as this thread is going on there are YT SJW making videos on how light skin blacks have privilege
If you look at the internal LGBTWXYZ community you'll see gay white males are not oppressed because "White"
this was bound to happen and as they see Trump is very likely to win
The tantrum will begin, each will try to out oppress each other
this was always destined to happen it seems closer and closer each day now

Just be ready for it

I think realistically I'd never hit anyone with a crossbow when it's all kicking off and then get enriched while trying to reload it but swinging a bladed weapon about is a good way to make someone regret coming near you, although maybe the misses would prefer that if it's feasible.

You're thinking rioters vs. 50 solldiers,
I'm saying it will be rioters with no gun training fighting real soldiers + police forces.
We have organization in our countries, only reason why riots are out of control is because the orders do not get through from higher ups. If it's a real emergency state situation, it will be up to middle ranked officers to lead and coordinate.
You are not military, I'm no expert, but I know this much.

UN is nothing without the state armies backing it. Why would France and the US back a military intervention in the UK.
This is the main point I'm wondering about. Unless the UK turn into a muslim country, in which case, I'ld gladly go there myself and help them out, there is no way the UN will invade UK using only mercs.

If op is legit he would agree with me. Any dump of real intel into an online forum is

always accompanied with some disinfo or half truths by the poster to maintain plausible deniability and keep up the illusion that it might just be some guy guessing. It's not so much what the facts are in a high kevel leak, it's the ideas you are seeding into the enviroment that matters. Whether or not the info is entirely based in reality is irrelevant.

[The image is a black and white manga panel featuring a character with large, expressive eyes and a prominent nose. The character has a large, curved ear and a prominent, curved neck. The character's hair is styled in a way that it appears to be flowing, and it is adorned with what looks like a necklace. The character's expression is intense, with a furrowed brow and a slight smile. In the upper right corner of the image,

there is a speech bubble that reads "THAT'S BULLSHIT," which is a common expression of disbelief or disagreement. Below the speech bubble, there is another speech bubble that says "BUT I BELIEVE IT," suggesting a contrast between the character's disbelief and the character's belief in the statement. The background of the image is plain and white, which puts the focus on the character and the text within the speech bubbles. The style of the image is reminiscent of manga, with its black and white color scheme and the use of speech bubbles to convey dialogue.]

Very important stuff I want to say this time around. so pay attention /pol/

> ISIS cells did the IED attacks. (which is why the media is covering it up, or trying to)

> The media is covering up attacks as "fireworks", "Transformers", "Gas Leaks". so watch out for this

> The Alabama pipeline leak was actually a ISIS attack on infrastructure.

> The media is covering it all up, and its pushing more people away from the MSM, and making people wake up.

> Obama wants to be out of the whitehouse, he is getting sloppy. He also knows Hillary would end his legacy if she became president and he still hates her beyond reason and doesn't want her to be president. He just wants to Golf.

> Soro's PMC/Black OP's are bringing ISIS leaders out of the middle east and setting them up in Europe and bringing them over the US-Mexico Border.

> Soro's Black OP's have been engaging US special forces on the ground.

> ISIS and other radical groups have been engaging Drug cartels in Mexico-south america.

> CTR(correct the record) funding is running dry and management is taking the money and running.

> Trump is gaining support from people on the "inside". Directly or indirectly more citizens see a positive future due to him. The polls are showing it & things like that.

> Even the Globalists understand that a Hillary presidency would fuck over alot of things and alot of people, so they very much don't like Hillary currently. They went from "We hate trump" to "We are So-So about Trump".

Important Intel. Spread the word.

It's not a matter of when, its a matter of how.

Everyone is shocked when a "lone wolf" attacks.......... but imagine everyones reaction when the whole wolf pack attacks.

9/11 killed around 3,000 people.

That number will be childs play to give a assessment due to how many ISIS cells &

supporters came in the "refugee" waves.

It's not fear mongering either, the EU's military and intelligence agencies know this, and its going cause alot of EU people to die because of Feminist/SJW/PC culture not being stomped out.

I have a difficult time believing this, it seems too direct when typically his efforts are underhanded and involve just throwing money at people or groups who are attempting to destabilise society.

ISIS just took credit for a mass stabbing that took place in the US around the same time as the IED's.

It's extremely plausible.

As I said, look at where they are located.

Then figure out possible supply routes.

Then look where the tourist spots, gatherings and soft targets are.

Muslim worship locations are also a factor.

If you want to know "where will they attack", think where the most people are going to be clustered.

It's like showing a kid a bunch of icecreams, and asking him "which one do you want?".

[The image is a composite of two photographs, both featuring a cat with a light brown coat and striking green eyes. The cat is looking directly at the camera, with its ears perked up and its whiskers clearly visible. The background of both images is a snowy forest, with trees covered in snow, suggesting a cold, wintry environment. The lighting in both images is soft, with the cat's fur appearing slightly mottled, which is typical of a light-colored cat. There are no texts or discernible brands in the image. The style of the image is a close-up portrait, focusing on the cat's features and the natural surroundings.

Well regarding Indonesia, the most famous terrorist group (Mujahidin Indonesia Timur) are 'trapped' in Poso with the local anti terror group fucked up all of their supply route to

the point that they've to eat raw boar.

However, the biggest problem is that since it's an ideology motivated movement, lone wolves and independent cells are inevitable. I was once managed to 'infiltrate' a sympathizer and he showing me his home made rifle.

PS: I'm not an Achmed. To be honest, I think that it would be interesting to have the Muslims and Christians having a little Crusade just like what happened in Poso during the 98s and early millenia

[The image is a screenshot of a news article or a photograph, featuring a man in a formal suit and tie. The man appears to be speaking or addressing an audience, as indicated by his posture and the presence of a microphone. He is wearing sunglasses with pixelated black squares on the lenses, which suggests a humorous or satirical context. The background is blurred, but it seems to be an indoor setting with a flag and a wooden paneling, possibly a governmental or official building. The text in the image reads: "President Assad is not worried about Syrian unrest, gov't is dealing with it." This suggests that the man is addressing a situation related to the Syrian government's handling of unrest within the country. The text is in English and is presented in a bold, capitalized font, which is typical for news articles or headlines. The style of the image is a combination of a photograph and a graphic, with the photograph capturing the man's face and the text providing context. The pixelated glasses add a playful or satirical element to the image, contrasting with the serious tone of the text. The overall composition of the image suggests it is meant to be a visual representation of a news story or a meme.]

Technique #3 - 'TOPIC DILUTION'

Topic dilution is not only effective in forum sliding it is also very useful in keeping the forum readers on unrelated and non-productive issues. This is a critical and useful technique to cause a 'RESOURCE BURN.' By implementing continual and non-related postings that distract and disrupt (trolling) the forum readers they are more effectively stopped from anything of any real productivity. If the intensity of gradual dilution is intense enough, the readers will effectively stop researching and simply slip into a 'gossip mode.' In this state they can be more easily misdirected away from facts towards uninformed conjecture and opinion. The less informed they are the more effective and easy it becomes to control the entire group in the direction that you would desire the group to go in. It must be stressed that a proper assessment of the psychological capabilities and levels of education is first determined of the group to determine at what level to 'drive in the wedge.' By being too far off topic too quickly it may trigger censorship by a forum moderator.

How do you think ISIS got so much land so fast?

The PMC's were helping.

The best way to describe the tech they have is that they are about as strong as some EU armies presently.

They were the ones that bombed Assad's forces to clear the way for ISIS in that location.

The pyramid is divided into three levels, each labeled with a different organization or entity: "THE NEW WORLD ORDER," "WORLD FINANCIAL CONTROL," and "WORLD POPULATION CONTROL." Each level is further divided into smaller sections, each with a different color and text, indicating the specific functions or areas of control. At the bottom of the pyramid, the text "YOU ARE HERE" is written in white, with an arrow pointing to the left, suggesting that the viewer is at the bottom of the pyramid. The pyramid is designed to represent a hierarchy of control, with the eye at the top symbolizing the Illuminati, and the pyramid itself representing the control of the world's resources, institutions, and populations. The colors used in the pyramid are red, black, and white, which are often associated with power, authority, and secrecy.]

> Soro's plans have stepped on the feet of alot of Globalist groups, and they are pissed off at him and his family.

> SJW/PC culture groups across the US & EU are working with terrorist groups, by weakening society & trafficing them in.

Everything I'm saying is either happening or will happen.

The older globalist groups are dying out/retiring, and the newer ones(who want better advancements in tech & people being proud of the places they come from) are gaining more traction.

Which is why you see the OWO(Old World Order) falling apart, and a NWO(New World Order) breaking through.

Hillary's Health is crumbling, So is her campaign and its management staff. Her polls are dropping rapidly and frankly her "supporters" are not actually going to physically vote for her.

Bill doesn't want Hillary to become president. The Clinton Foundation(something he loves & what he spent his post presidency building) would have to be shut down or weakened. He wants to spend time with his family & be around for his grandchildren.

The Obama's hate Hillary still and do not want her in the White house. The biggest reason is that it would erase there legacy. Also how even they know trump would be the better president(Obama wants to retire and relax on some golf courses(trump knows many good ones) at this point.)

Both Obama & Bill do not want Hillary to become president, but they don't mind her running her campaign into the ground rapidly.

The Media has effectively done financial suicide by doubling down for Hillary & the DNC.

More and more people on the "inside", are favoring Trump and want him to win.

CTR(Correct The Record) is not paying people doing the posting, only management &

management is in shambles due to pressure from "the top".

The EU is going to break up very soon, People are taking there countries back & fighting back against the Soro's funded ISIS invasion of Europe.

The UN has effectively become the League of Nations 2.0, meaning that countries are going to rapidly be leaving it.

Watch the "world stage" carefully /pol/. All I'm saying is true or is in progress.

Bingo. Autism is a developmental disorder. Introverted kids who mostly stayed indoors are all basically autistic or full blown sociopaths because most of their social interaction comes from behind a screen where you don't have microexpressions and sheeeit from your counterpart.

[The image depicts a surreal scene with a central pyramid-like structure that appears to be made of stone or concrete. The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar design and color scheme. The background is a gradient of purple and pink hues, with a gradient of blue at the bottom, suggesting a twilight or dawn setting. The overall composition of the image conveys a sense of mystery and wonder, with the central

pyramid being the focal point. There are no discernible texts or inscriptions within the image. The style of the image is digital art, with a focus on surreal and fantastical elements.]

"Noah's Ark" Class bunkers are a classification of Globalist bunkers that can handle some serious shit.

Problem is that they are still only concepts. The 2012 movie Bunkerships were showing one of the many concepts.

Why am I bringing this up now?

Because of Hillary gets into power, you better get into contact with people that have Bunker access and knowledge.

We have 48 hours, lets make sure the Queen of Death(Hillary) doesn't get nuclear power.

[The image is a series of four panels, each depicting a cartoon character in a sauna. The characters are anthropomorphized and appear to be in a state of relaxation, with one character in the foreground wearing a white shirt and a blue towel, and the other in

the background wearing a red shirt and a white towel. In the first panel, the character in the foreground is sitting on a blue towel, with a red-faced character in the background. The text above the character in the foreground reads "Sauna Championships," suggesting that this is a competition or event related to saunas. The second panel shows the same character in the foreground, but now wearing a red shirt and a white towel, and the text above the character in the foreground reads "Sauna Championships," indicating that this is the second event in the series. The third panel shows the same character in the foreground, but now wearing a red shirt and a white towel, and the text above the character in the foreground reads "Sauna Championships," suggesting that this is the third event in the series. The fourth and final panel shows the same character in the foreground, but now wearing a red shirt and a white towel, and the text above the character in the foreground reads "Sauna Championships," indicating that this is the fourth event in the series. Throughout the panels, the text "Sauna Championships" is repeated, suggesting that this is a series of events or competitions related to saunas. The characters are depicted in a humorous and exaggerated style, with exaggerated facial features and exaggerated body language, which is typical of the style of the image. The background is a simple, light color, which contrasts with the darker colors of the characters and the text, making the characters stand out.]

Hey Anon5

Your questions over the weekend and the answers were very interesting to me.

1 - You mentioned the Truman Show / Celebrity connection. Could it be said that our society is kept in a similar bubble, where a falling light in the first scene of truman show is explained away as a 'gas leak' and so forth? The underlying message of the truman show is that the human will will break from mental captivity once it discovers 'flaws' in the system.

2 - Are you a religious person? Is there a religion you find especially superior?

3 - When someone said Truth IS stranger than fiction, and you compared this to Truman show, what was the subtext? That there is no such think as "is" and instead only results overtime are real?

4 - I feel like from your posts that you look at daily events, nature of power, differently. Are everyday people looking at cause and effect, objectivism, or even ontology in a way you'd consider... less than?

Sorry for how wordy my questions are. You fascinate me. And I take everything you say with a grain of salt, but I still read you.

Also, bonus 5 - You mentioned that things were 'changing' so you changed the way you wrote. You also mentioned the military knows more about AI than the general public. Are there programs that scour the web for certain leaks or knowledge dumps and you change your style of writing to trick them?

[The image is a dynamic photograph capturing a performance in an indoor arena. In the center of the frame, a performer is suspended in mid-air, with their arms outstretched and legs bent at the knees. They are wearing a costume that includes a white feathered headdress and a black and white mask. The performer appears to be in the midst of a dance or acrobatic routine. Surrounding the central figure are several other performers, all dressed in orange jumpsuits. They are positioned in various poses, some bending over or reaching out, suggesting they are part of the same performance. The background of the image is dark, with a blue and white striped pattern that could be part of the stage design. The lighting in the arena is bright, illuminating the performers and creating a contrast with the dark background. There are no visible texts or discernible brands in the image. The style of the photograph is candid and captures the energy and movement of the performance.]

Polish govt is crazy about Smolensk for internal use. they aren't trying to discover anything, poeple they appointed to do it have no experience in industry or plane crashes investigations. they also said they have no intererst in examining the wreckage again. tha thing is, they got huge number of folllowers for questioning the official version without any froof. especially older people. they don't even have any consistent version of what could have happend, just dozens of different ideas and no intention of investigating them. its just a show for their electorate.

truth is, Poland is just shit at security. earlier this year our president almost died, because tires on his car were too old and exploded. nobody gives a shit about safety here, and sometimes it comes back to bite.

You probably already know most of this. His name and several methods of contact were listed in Epstein's little black book. He was listed in the flight logs of Epstein's private jet, the "Lolita Express". One of the women that claims to have been raped several times by Epstein and other wealthy men during sex slave parties on the island was originally selected while working as a locker room attendant at Trump's Mar-a-Lago (spelling?) Hotel. Of course, "coincidentally", Trump is named as one of the rapists by one of the girl's involved in the Epstein case. Trump has claimed in several interviews to be a good friend of Epstein's, and has mentioned that he likes "young beautiful women". Also, Epstein's girlfriend Maxine Gislaine (again, not sure if I've got the spelling correct) is rumored to have worked as a sort of "madame" for him, finding, luring and prepping young women for abuse like some sort of pimp. She is a good friend of Trump's, this picture shows the two together. She also attended Chelsea Clinton's wedding.

Finally, during his trial, investigators asked Epstein if Trump had ever done anything with underage girls in his presence and rather than claim that this was untrue, Epstein

said "I'd love to answer but I will have to plead the fifth"

I looked when He opened the sixth seal, and behold, there was a great earthquake; and the sun became black as sackcloth of hair, and the moon became like blood. And the stars of heaven fell to the earth, as a fig tree drops its late figs when it is shaken by a mighty wind.

Then the sky receded as a scroll when it is rolled up, and every mountain and island was moved out of its place. And the kings of the earth, the great men, the rich men, the commanders, the mighty men, every slave and every free man, hid themselves in the caves and in the rocks of the mountains, and said to the mountains and rocks, “Fall on us and hide us from the face of Him who sits on the throne and from the wrath of the Lamb! For the great day of His wrath has come, and who is able to stand?”

Jews are one of the most common titles that the elite cabal Satanists go by. They do this because they want to subvert the perception of Christianity- by calling themselves Jews, they convince everyone that they are the holy sacred people of the Bible. This is explained in the Bible, they are of the Synagogue of Satan. Not all of the elites call themselves Jewish, but they all follow the law of the Talmud. Just think, for example the Rothschilds claim to be Christian but they are kikes as well. Really these people are Khazarians, descendants of Cane, Satanists.

Anyways, why are you okay with Trump taking 160 mil from Soros?

The Globalists screwed themselves, and they only have themselves to be mad at and to blame.

Let me explain......

They backed Hillary. Who is damaged goods, a risk, a liability & has a tendency of backstabbing people. Someone who has so much corruption, that it if you were to look for it, it would be like taking a metal detector in a junk/scrap yard..

Then they doubled down, to a point where they exposed themselves. This is like playing Poker/cards and then doubling down on a bad hand when everyone at the table has figured out the hand is bad.

The Globalists have no one to blame but themselves, and can't be mad at anyone else but themselves.

[The image is a digital illustration featuring a stylized cartoon-like representation of a person's face. The person appears to be a male with a light complexion, and the image is colored in a gradient of warm hues, transitioning from a deep purple at the top to a warm yellow at the bottom. The person's face is drawn with a simple, cartoon-like style, with a simple line drawing of the eyes, nose, and mouth. The person is wearing a white baseball cap with the text "MAKE AMERICA GREAT AGAIN" written in bold, black letters across the front. The cap is positioned on the person's head, covering the top of the head and extending down to the forehead. The cap's brim is visible, and the text is centered on the cap. The background of the image is a gradient of warm colors, transitioning from a deep orange at the top to a warm yellow at the bottom. This background suggests a sunset or sunrise, with the sky displaying a gradient of colors. The horizon line is visible, indicating the edge of the sky. The overall style of the image is humorous and satirical, with a focus on the text on the cap, which is a play on the slogan "Make America Great Again" from the 2016 presidential campaign of Donald Trump. The image seems to be a meme or a satirical representation of the political campaign.]

[The image is a graphic design with a dark red background. In the upper left corner, there is a stylized image of a man's face with glasses and a beard, smiling. The man appears to be wearing a suit. Below the man's face, in the center of the image, is the phrase "INTO THE TRASH" in large, bold, white capital letters. The text is slightly tilted to the right. To the right of the text, there is a stylized depiction of a planet with a fiery, orange-red atmosphere, resembling a sun or a star. The planet is surrounded by a bright blue ring. The overall style of the image is dramatic and intense, with a strong emphasis on the phrase "INTO THE TRASH."]

Honestly I would like to call you retarded, but you just need to educate yourself.

Globalism did not back Hillary, they wanted her to fail. They wanted Trump to win, and pull every single angry white person out of being complacent.

This is when the ride is going to get rough, has we have seen the stock market show signs of crashing because market speculation on removal of NAFTA and the destruction of the TPP. Which will be even further pushed down because the Fed can no longer and will no longer keep the current market stabilized. We are heading towards something worse than the Great Depression.

On top of the civil unrest this will cause, there is yet another problem that will reach critical mass within the next several years, these activist movements that have been seeded through the country and have been on Soros payroll for years, this is when he is going to push them into action, most likely with a string of false flags incidents strung together when the nation is at its weakest and BLM will be painted as freedom fighters and revolutionaries, read up on how soros had done this to other counties and is the reason he is wanted in Russia for warcrimes.

Couple all of this together with the head of state being one of the most dividing leaders we have had in a long time and it doesn't make it a pretty picture.

America will fall within the next 4-8 years. Not because of Trump, but because they have stacked the deck for years for this to happen.

[The image shows a gold-colored sculpture of a frog sitting in a meditative pose. The frog is depicted with its eyes closed, and its mouth is slightly open, as if it is in a state of deep concentration or meditation. The frog's body is elongated, and its legs are spread apart, with one leg bent at the knee and the other extended straight out. The frog's arms are folded in front of it, with the fingers interlocked. The sculpture has a glossy finish, suggesting it is made of a metallic material. The background of the image is plain and white, which contrasts with the gold color of the frog, making it stand out prominently. There are no texts or additional objects in the image. The style of the image is a straightforward, clear photograph with no filters or artistic effects applied.]

The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar design and color scheme. The background is a gradient of purple and pink hues, with a gradient of blue at the bottom, suggesting a twilight or dawn setting. The overall composition of the image conveys a sense of mystery and wonder, with the central pyramid being the focal point. There are no discernible texts or inscriptions within the image. The style of the image is digital art, with a focus on surreal and fantastical

elements.]

Inorder to defeat the Globalists(who like to work on multiple fronts), you have to target different things of the same operation simultaneously.

1) Ending the EU & Freeing Europe(The EU's purpose is to destroy Europe and replace its demographics)

2) Exposing George Soros to the masses and making his history/actions well known.

3) Getting the information out to the public that SJW/Feminists/Left have Frontal Lobe Disorder(which is the result of Frontal Lobe damage).

4) Destroying the MSM(if the MSM doesn't destroy themselves first) and boosting the alternative media.

5) The Pizza in Hollywood would destroy the public's perception of Hollywood if it was uncovered.

The best part about beasts like this is that there are many Artery's that you can make bleed out.

What's your take on the three recent Wikileaks insurance files, and their hashes not matching? All of their previous released hashes matched the insurance files, then WL twitter claims that the last three hashes are for decrypted files, when all previous evidence points to the contrary (hashes were for encrypted files.)

It's hard to glean any information from this, other than something's up (and obviously would not be the case if JA physically was still at the helm)

Also word that the keys to the previous insurance files have already been found/leaked, but are being suppressed (recent DDoS attacks, deletions, etc.) Any truth to this?

A lot of the people here on /pol who were motivated by the election are taking a breather. At the same time, powers on all sides are shuffling pieces around while people are placated by "The horror" of trump going to dinner without telling the press.

The MSM is in full damage control mode. Hence the direct bashing of the alt-right as being a white supremacy movement. Thing is, with trump soon taking the presidency, that's not exactly having the effect they want.

Until the right learns to propagate information and a belief system much as the left does now, things aren't going to change very much. You'd need to raise an entire new generation under right leaning ideals; which while sort of happening, has a long way to go. we're talking 10-30 years.

Just in the past week, I've been seeing a lot of posts shared on facebook of obviously fake reports of trump supporters harassing minorities. Everyone even remotely left wing is sharing them. I tried to talk to some of the original posters. They all say the usual left wing talking points.

Their profiles are very public and they all work for left wing activist organizations. I've noticed they are all upper class white people, about 90% women. They will reply if you leave a comment specifically criticizing something they said.

I convinced one to approve my friends request. She seems like a real person so I will try to dig into her thinking.

Any advice on what to tell/ask her? I told her I'm a minority who voted for Trump and I think both candidates were bad for different reasons. She replied with the usual left wing hysteria.

Of course if there's a nefarious reason behind all this, then there's no question to why there's so much uncertainty regarding this situation. But the problem is we neither know if the situation behind this is nefarious, innocuous, or somewhere muddled up in the middle.

>is Wal-Mart used to distribute drugs in the USA?
Wal mart is part of FEMA's plans if you believe the FEMA camp stuff. I remember reading the army has plans for wal mart in their defense preparedness but I cant find anything on it now (Just FEMA camp stuff). You would be foolish not to. They are everywhere. Everyone knows where they are. They are stocked with goods.

You can bet when shit goes down hill if the army rolls into town walmart will be occupied.

[The image is a digital illustration featuring a fantasy-inspired scene. At the center, a figure with long, flowing white hair is prominently displayed. The figure is holding a sword in one hand and a staff in the other, suggesting a warrior or a sorcerer. The figure's attire includes a long, flowing cloak and a cape, which adds to the ethereal and

mystical atmosphere of the scene. The background is dark and moody, with a full moon visible in the top left corner, casting a soft glow over the scene. The moon's presence is significant as it is often associated with magic and the supernatural in fantasy narratives. Surrounding the central figure are various elements that contribute to the overall theme of the image. To the right, there is a golden, ornate structure with intricate designs, possibly a castle or a temple. This could imply a setting of high fantasy or a place of power and importance. On the left side, there are several candles, which could symbolize magic or the supernatural. The candles are placed in a way that they are not directly in front of the central figure, which might suggest a sense of distance or a focus on the central figure. The overall color palette is dark and moody, with a predominance of black, gray, and gold tones. This color scheme is often used in fantasy art to evoke a sense of mystery and otherworldliness. The image does not contain any discernible text or branding, and it appears to be a piece of artwork rather than a photograph. The style of the image is reminiscent of traditional fantasy art, with a focus on the interplay of light, shadow, and color to create a visually engaging scene.]

Warburg and Schiff, two Rothschild agents, funded Kalegri and implemented the early parts of his plan in America and Europe. Rothschild also owns a large amount of Israel so ofcourse it's in his best interest for a greater Israel when the Jews own goyim as slaves.
Soros, on the other hand, has invested millions into anti-israel groups and stopping Zionist agression and the EU plan.

CLIMATE TARDS BTFO
Soros Gets Obama To Kill Coal, Then Buys up Huge US Coal Mines!

In October, the Soros-funded Climate Policy Initiative published a report saying the world economy could save $1.8 trillion over the next 20 years by shifting from coal to clean energy.

"What a difference a few months makes, especially when those months have seen coal company stocks fall to fire sale prices," Steve Milloy a former coal industry executive who publishes JunkScience.com, writes on Breitbart."

http://www.newsmax.com/Finance/StreetTalk/George-Soros-energy-coal-shares/2015/08/18/id/670705/

So now, after Trump wins the election, coal is again king and Soros is making out like the bandit he is sitting on huge stakes in the two largest coal mines in the US. In a Trump administration, coal will be restored to it's place as a low cost energy source:

Please read through the pizza thread. at the very least, I'd be interested in knowing if the creep artwork Tony and John Podesta collect is something that a pedophile would fawn over. And if some of the music videos/instagram postings from Jimmy Comet are stuff that pedophiles would "get" (as like inside pedophile jokes or something).

Anyway, what I'm trying to say is that your input is most valuable in these times. Ignore the jerks and shills in the pizza thread (we are getting shilled hard, with persistent posters - no "1 post by this ID" shills like CTR).

Mr. 5, I bought some estrogen blocker and pre-workout supplements. I can afford it. I don't want to be dependent on them but over the past week I've noticed a huge improvement in my cognition, physical aptitude, etc.. I know I'm more confident and emotionally stable. I work in a restaurant job so a lot of physical labor. I'll keep you

posted on my progress in improving my body and any luck I have with those SJW activists.

I know some doctors personally and I'll ask them to help me find frontal lobe info in medical journals. I'll post my findings on pol. Please keep an eye out. I always use this name.

It's not really possible to avoid all the chemicals in the environment but I really hope these pills I'm taking will counterbalance.

Inorder to defeat the Globalists(who like to work on multiple fronts), you have to target different things of the same operation simultaneously.

1) Ending the EU & Freeing Europe(The EU's purpose is to destroy Europe and replace its demographics)

2) Exposing George Soros to the masses and making his history/actions well known.

3) Getting the information out to the public that SJW/Feminists/Left have Frontal Lobe Disorder(which is the result of Frontal Lobe damage).

4) Destroying the MSM(if the MSM doesn't destroy themselves first) and boosting the alternative media.

5) The Pizza in Hollywood would destroy the public's perception of Hollywood if it was uncovered.

Better quality food works but it's not always practical. Many places don't have them and they're expensive. I just do the best I can. My meats are organic or at least raised more humanely than factory farms.

Search estrogen blocker on Amazon.com. Some have very good reviews. They use chemicals to reduce your estrogen levels therefore change the estrogen-testosterone balance in your body. I don't recommend taking steroids.

At GNC, ask for nootropics and pre-workout supplements that can keep you awake and focused. Don't take them everyday; only on days when you're really busy and know you need it. You'll feel much better those days, and because it's chemicals, you need to take days off to let your body filter them out.

Everything in moderation. Even the most deadly chemicals can be really good for you.

What really concerns me is that both Trump and Clinton live in New York, surrounded by cucked gun law states, how easy it would be to ship them straight in through NYC's port, and (afaik) only one way in/out of Trump Tower.
Pic related.

I ask about birth control because I've been on the pill for some time, without most of the negative side effects of it, but want to get off and give my body a break. But I am in no financial state to have a child, nor do I want to this early in my life. Which is why I bring up the non-hormonal IUD. Seems like a better option.

Globalists are not just 1 group. There are many different ones.

Also Humanity didn't fully come out of Africa.

Asia = Asians(who then migrated to the Americas over the land bridge becoming the natives)

Europe = Caucasians

Africa = Africans

The Middle east was the known worlds center(Think like a popular tourist city in a way), which is why after so many years of wars, breeding, etc the people look the way they do & how if you go in any direction out around from the middle east the people look the way they do.

Human history is fascinating.

However, erroneous and biased interpretations of the scientific literature often affect educational programs and even legal proceedings. For example, a pregnant woman whose emergency room toxicology screen revealed cocaine use was recently jailed and accused of using a deadly weapon against her unborn child in Tennessee, United States 1. Such policy decisions may have unintended adverse consequences: for example, they might harm the fetus due to pathophysiological activation of the maternal stress response system "

All 3("Climate Change",Multiculturalism & Diversity.) are designed to bring down the West.

"Climate Change" is for justifying de-industrialization & mass eugenics.

Multiculturalism and Diversity are for demographically replacing the Wests populations with more controllable people.

Notice how all 3 are being done to the West......while at the same time being promoted/exported by the West.

The UN also plays a key role in all 3(I'll talk about the UN in a separate Knowledge Bomb).

Something very telling about all 3 is that if you speak out against them & the agendas they are pushing, you get demonized,attacked and many other things.

Here's how we can fight it:

Blackpill the shit out of libtards. Tell them honestly that it's 2016 and too late to fix global warming. Outright denial won't work, so warn them of the impending doomsday instead. We need to make it clear that America's energy security is more important than avoiding a climate scenario which is already 100% going to wipe out our species.

If it was 1996 we could stop it. 2006, probably not. 2016? Not a chance.

Also let me tell you something about Wikileaks/Assange.......

The whole "Assange is dead/Wikileaks is compromised" is a big psy-op designed to make people question wikileaks credibility.

The plan you are seeing now was created during the recent Election to roll out regardless of who won it.

Thats why Kerry threatened Ecuador with war(which is why they shut off the internet) & why the Mayor of London sent a ISIS guy to try to sneak in and kill Assange(Remember that incident?).

[The image is a meme featuring a man's face with a caption that reads "OH LOOK. IT'S THIS THREAD AGAIN." The man has a bald head, a beard, and is wearing a black shirt. His expression is neutral, and he is looking off to the side with his hand on his chin. The background is blurred, suggesting a room with a table and chairs. The style of the image is humorous, with a meme-like quality, and it is likely used for entertainment or to share on social media platforms.]

Yeah but it's actually a better investment than fossil fuels because once we have a renewable energy infrastructure IT JUST FUCKING PRODUCES. We won't have to go bomb the middle east every few years. Also we'll prevent the planet from dying.

I can't imagine how you can possibly believe that Climate Change isn't real. Who does it benefit if it's a hoax? Scientists? Fuck no. Nobody has gotten rich from Climate Science. Not compared to the Oil Companies anyway. Do you think the Koch Brothers are benevolent? That the Rockefellers were just charming entrepreneurs? Get a fucking grip. Fossil Fuels are the source of Elite power. The truth of Climate Change is a direct affront to the ruling class. That's why they spend so much money removing science from schools and you idiots eat it up. Jesus fuck.

[The image is a simple, black and white line drawing featuring a character with a large

head and a small body. The character appears to be a humanoid figure with a round head and a small, round body. It has a neutral expression with its eyebrows slightly raised, and its mouth is slightly open as if it's in the middle of a thought or contemplation. The character is holding a small, white cup with a handle, which has steam rising from it, suggesting that the character is holding the cup close to its face. In the bottom right corner of the image, there is a text that reads "INTERESTING" in a bold, sans-serif font. The text is in white, contrasting with the black background of the image. The style of the image is cartoonish, with a simple, clean line drawing that conveys a sense of humor or playfulness. The overall tone of the image is light-hearted and humorous.]

Yeah it's a bit disturbing the spin that climate change will displace millions and billions of dark people into the northern hemisphere. I concur that this is the plan as they - economic or climate refugees - are far easier to subjugate for any despot wanting to rule the world. Climate change is also being used to drive up energy prices and assist in turning off the lights so to speak as dark ages work best that way.

Isn't it the case that from a sustainability standpoint, even if anthropogenic warming is bullshit, 900 million is all the Earth can handle at a high technological level in perpetuity? If so, doesn't working towards that goal make sense? Why not promote eugenics and population management? Do it through birth control and just don't reproduce...done. The real bitch of a question is, how does society progress and maintain itself with a zero-growth model when evolutionary psych has shown us that we're savage, competitive, killing, raping, fuck machines?

Too bad you're fucking wrong about all that. There is absolutely a correlation between the rise of global temperatures and the increased CO2 and Methane in the atmosphere causing the greenhouse effect. Yes, there is natural heating and cooling. But the dramatic shift in paradigm that correlates exactly with humans burning fossil fuels is not natural.

Why don't you just admit that you don't actually know any of the evidence? You've clearly never listened to a scientific explanation of the phenomena at hand. Open your fucking mind. Give it a try. Maybe your echo chamber on /pol/ did you wrong.

If Romney won't be selected by Trump, can't Trump call out the media for lying about who he talks&meets?(you should answer, you did say that the meetings with Romney and Kissinger at Trump tower were fake) Also what's Romney's goal with Trump ?

2)Since climate change is pushed down our throats and everyone who criticizes it is deemed a moron, what are the best ways to debunk it or show others some signs of doubt? Most scientists who support it are left leaning, if what you say is true, gonna need some good arguments.

The man is wearing a black t-shirt with a graphic design on the left side of his chest. His right arm is raised, with his fist clenched, and his left arm is extended out to the side. He has a tattoo on his left forearm, which appears to be a bird design. The background of the image is plain white, which contrasts with the man's dark clothing and makes him the focal point of the photograph. 1) What I'm trying to get at is that unless Trump releases a statement,etc about the meeting, the MSM is spewing bullshit.

2) Think of it less like a normal topic, and think of it more like a Brainwashing/propaganda/Social Engineering program being funded by people. Thats how you dismantle it.

3) The best way to defeat the Left is to turn it on itself.

[The image is a digital illustration featuring a character that resembles a frog with a human-like face. The frog is depicted with a green body, large black eyes, and a brownish-black mouth with a slight frown. It is wearing a blue shirt and appears to be sitting at a desk with a computer monitor in front of it. The frog's right hand is resting on the desk, and its left hand is positioned on the mouse, suggesting it is interacting with the computer. The background is a solid purple color, providing a stark contrast to the frog and the desk. There are no texts or additional elements in the image. The style of the illustration is cartoonish and seems to be a digital creation rather than a photograph.

The hands of the watch are not visible in the image. The background is dark and cloudy, with a gradient from dark to lighter shades, giving the impression of a stormy sky. On the left side of the image, there is a stylized depiction of a green frog with a long, thin neck and a red tongue. The frog appears to be in motion, as suggested by the blurred lines around it. [The image is a still from a television program, likely from the late 1980s or early 1990s, as indicated by the text "BERRY SPRINGER" at the top left corner. The central figure in the image is a young boy with short, light-colored hair. He is wearing a dark-colored shirt and has a serious expression on his face. The background is blurred, suggesting motion, and the boy is looking slightly to his right. In the lower part of the image, there is

a text overlay that reads "TYLER 10-YEAR OLD WITH AIDS." The text is in white, contrasting with the darker background, and is positioned in a way that it is the focal point of the image. Astrology and the occult, whether true or not, are useful as a robust, already existing code, not impervious to breaking but also protected by its complexity. You could tie an event to a date using a seemingly unrelated statement about a star, an informed person would get it and an uninformed person would suspect nothing.

[The image is a collage of two separate photographs. On the left, there is a map with various locations marked, including a large red square labeled "Paris" and smaller squares with names such as "Bavaria," "Switzerland," and "England." The map is overlaid with a series of black and white photographs of men, each with a caption beneath them. The captions are in English and provide information about the men's names, professions, and locations. On the right, there is a photograph of a building with the caption "Of fresh cup of coinkydink?" The building appears to be a historic structure, possibly a café or a similar establishment, with a sign that reads "Cafe Central in Vienna, Austria." The photograph is in black and white, and the building has a classic architectural style. The style of the image is reminiscent of a historical or travel-themed advertisement, with a focus on the names and locations of notable figures from the past. The use of maps and photographs suggests a connection to historical events or places, possibly related to the men's professions or the locations they were associated with.]

[The image is a candid photograph of a dog lying on a sandy surface. The dog appears to be a medium-sized breed with a tan coat and white markings on its face and ears. Its eyes are open and it seems to be looking off to the side, possibly at something or someone not visible in the frame. The dog's ears are perked up, and its mouth is slightly open, suggesting it might be panting or simply resting. The background is blurred, but it seems to be a sandy beach with a hint of a person's arm visible on the right side, suggesting the presence of a human. The lighting in the photo is soft and warm, casting a gentle glow on the dog and the sand. There are no visible texts or discernible brands in the image. The style of the image is casual and natural, capturing a moment of relaxation and tranquility.]

I am not doing so now in part because you can pretty much figure it out (cf the effect of constant CTR shilling on anons who do not want to leave and have access to a 5ag3 button). I bring it up to observe, I no longer think it's really necessary. Look at this hysterical and dedicated and team-oriented shilling. Precisely. This is not an original point of Anon5's, it's something I was talking about years ago, many others have observed this.
Blacks at worst riot. What does that mean? That means they burn their own stuff. You -- up in Elysium -- can intervene or not, as you wish, with every expectation of success.
Whites don't riot, they (can) revolt. They replace you in Elysium. They overwrite your code and innovate an entirely new political system.
Thus blacks at their wildest are less of a threat than whites.

The best way to answer this question is to look at what has been done in the past, not as a guaranteed plan, but as a likely precedent. Picture the same things that happened in Syria happening in Europe. ISIS did in the Syrian dissident community the exact same thing they are doing in Europe: show up as ordinary joiners, recognize each other and link up, demonstrate some talent or asset to earn credit from non-ISIS (or just grab power), gradually work in the dark stuff as they feel their numbers make success likely.
Did you see the reassuring WSJ article on Libyan dissidents, which claimed that, while Islamists were among the rebels, they were a small minority -- generally serving as cadres and instructors and officers. So reassuring. They're merely in charge.
Watch for popular unrest and then how the nearby Muzzies react.

Regarding climate change. God cares about His creation. He says this

Revelation 11:18
And the nations were angry, and thy wrath is come, and the time of the dead, that they should be judged, and that thou shouldest give reward unto thy servants the prophets, and to the saints, and them that fear thy name, small and great; and shouldest destroy them which destroy the earth.

>destroy them which destroy the earth

Who is destroying the earth? Wicked people who take bribes from other wicked people and allow them to do fracking, etc. Or those pilots who agree to fly repeatedly all over the country and spray those chemical aerosols in the atmosphere to cause droughts. Or the people who bulldoze millions of acres of trees for a few thousand dollars. Think about who is causing the destruction, the people you aren't allowed to criticize. The ones making big money.

God will repay.

Below the speech bubble, there is a character with a mustache and a helmet with a swastika on it, holding a gun. This character is facing a smaller figure, who appears to be a young man with a paper airplane in his hand. The smaller figure is wearing a t-shirt with the word "KKE" written on it. The background of the image is plain white. The style of the image is reminiscent of political cartoons, often used to convey satire or commentary on current events.]

VESTIGIA ARANEAE - VOX OBSCURITATIS - PROJECT ANGELBOOK - VOLUME IX - PART 17

EZEKIEL REDIK YARBROUGH

Vestigia Araneae – Vox Obscuritatis – Project AngelBook – Volume IX - Part 17

By Ezekiel Redik Yarbrough - (DBM ECLIPZE)

The following books are comprised of direct, unaltered copies from Pastebin, some now
deleted, some only accessible through mirror networks or deep links scattered across the dark
web. Many of these links were discovered in abandoned onion lists, dead forum dumps, or
esoteric directories tucked into archived darknet files.
These pastes were never meant to last.
Some were deleted within hours of being
posted.
Others were buried under thousands of lines of spam, encrypted scripts, or meaningless
noise.
But buried in the noise were real transmissions: occult formulas, grimoire fragments,
astral logs, AI prophecy files, digital summoning protocols, and anonymous rants from souls
who had either touched something unspeakable—or were trying to.
I did not write any of this.
I did not censor, edit, or “correct” it.
I simply retrieved it, cleaned
the formatting for readability, and enshrined it in print—so it would never be wiped again.
This is Pastebin as Scripture.
The chan-post as Codex.
The uncurated underbelly of the
occult internet, finally given physical permanence.
Let this serve as both evidence and artifact:
a living record of the madness, brilliance,
paranoia, and revelation that once flowed through anonymous paste sites—before it was deemed
too strange to index, too dangerous to preserve, or too fractured to matter.
Now it matters.
Now it’s immortal.

haha i feel bad for all you newfags

>EU army is seperate from NATO
The article I linked talks about the NATO Secretary General basically shitting on the entire EU Army idea, calling it ridiculous.
The U.S is never going to leave Europe on it's own, Trump called the NATO chief and definitely reinforced that.
The only ones who would actually make up a EU army are France and Britain (who both have nukes and aircraft carriers), and both countries have shown disinterest in the idea.
All-in-All, Trump already talked to her, and she seems less abrasive than before; she knows it's folly to try and force Europe to do anything anymore.

[The image depicts a surreal scene with a central pyramid-like structure that appears to be made of stone or concrete. The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar design and color scheme. The background is a gradient of purple and pink hues, with a gradient of blue at the bottom, suggesting a twilight or dawn setting. The overall composition of the image conveys a sense of mystery and wonder, with the central pyramid being the focal point. There are no discernible texts or inscriptions within the image. The style of the image is digital art, with a focus on surreal and fantastical elements.]

If you think the Left & MSM freak out over Trump winning is a sight to see, you should see/hear whats going on with the Globalists/Globalists who fund them & are mad Trump won. They are generating enough salt to make truckloads of Oysters Rockefeller.

The Globalists/Globalist groups who are mad about Trump winning are acting so irrationally stupid & everything they try keeps backfiring on them..... they are becoming embarrassments in the Globalist community for there behaviors.

Lets put it this way, they are acting so utterly stupid, that globalist groups on different spectrum ends who normally wouldn't talk to eachother, are laughing together about it. Also they are starting to distance themselves from the irrational group/members.

Now there are Globalists/globalist groups who don't like Trump, however.... they are not freaking out and acting irrational about his win.("We have standards & don't throw a tempter tantrum, when things don't go in a way that we like".)
